

## FABRIC SAFETY STRAPS

### NOTES CONCERNING THIS ADDENDUM

This addendum supplements Section G86.240.3 and has been issued to make the safety precaution in Paragraph 2.06 agree with a similar one in a section of the practice covering Extension Ladders, and also outlines the conditions under which body belts and safety straps must be worn.

The cross reference "See Addendum" should be marked in G86.240.3 to indicate the following:

Paragraph 2.06 - Supplemented  
Paragraph 2.09 - Added

### 2. SAFETY PRECAUTIONS

2.06 When working on ladders, do not fasten the safety strap to the ladder unless the top of the ladder is secured to a suspension strand or similar support, as provided for in the section of the practices covering, Extension Ladders, Selecting Length, Footing and Upper Support.

2.09 Body belts and safety straps shall be worn and used, in accordance with other sections of the practices, at all times when working aloft on poles (including stepped poles), cable cars, splicers' platforms and ladders lashed to strand or otherwise secured.
