

TF CABLE GUIDE

NOTES CONCERNING THIS ADDENDUM

This addendum supplements Section G93.230.1 and has been issued to add the precaution that the TF Cable Guide must be used only with those cable reel trailers equipped with cable reel brakes.

The cross-reference "See Addendum, " should be written at Paragraph 1.01 which is replaced.

1. GENERAL

1.01 The TF Cable Guide is for use when placing lashed cable from "PWD" and "PCP" cable reel trailers equipped with cable reel brakes. Its purpose is to guide the cable from the reel on the trailer toward the lashing equipment on the strand in such a manner as to prevent the cable from rubbing against the flanges of the turning reel and to minimize bending of the cable.
