Abstract

This IL provides industry notification of the impending split of the 602 NPA.

Letter information (includes safety liability disclaimer (if applicable), ordering information, originator's signature information)

We have been advised by USWEST that substantial telephone number growth in Arizona necessitates splitting the existing 602 NPA (area code) and the simultaneous introduction of a new 520 NPA.

The Phoenix metropolitan area will retain the 602 area code, and the remainder of the current 602 NPA will be transferred to the new 520 area code.

The split of the 602 NPA is scheduled for 12:01 AM Mountain Standard Time, Sunday, March 19, 1995. The permissive dialing period will begin at 12:01 AM Mountain Standard Time, Sunday, March 19, 1995 and end at 12:01 AM Phoenix local time, Sunday, July 23, 1995. During the permissive dialing period either 602 or 520 will be acceptable in a dialed number terminating in the new 520 NPA. After the permissive period, calls dialed with incorrect NPA codes, as defined in the NPA split information published in the Local Exchange Routing Guide (LERG), will be routed to intercept. Changes in the local exchange routing information, based on data provided by USWEST, will be incorporated into the LERG and the NPA NXX Activity Guide (NNAG) and will be available September 1, 1994.

The dates that switching systems in the new 520 NPA will begin transmitting "520" in the calling number Automatic Number Identification (ANI) will be coordinated by USWEST with the interexchange carriers.

Details regarding testing of the new NPA are not available at this time.

The attached map illustrates the 602 and 520 configurations after the split. A listing of the communities to be served by each area code after the split is also included.

The dialing plan for the new 520 and 602 NPAs will be the same:

- All home NPA (HNPA) "local" calls will be dialed on a 7 digit basis with no prefix; i.e., NXX + XXXX (7digits).
