Abstract

This IL provides industry notification of the introduction of NPA 630 for relief of the 708 NPA.

Letter Information (Includes safety liability disclaimer (if applicable), ordering information, originator's signature information)

We have been advised by Ameritech that substantial telephone number growth in the Chicago metropolitan area necessitates the activation of an additional NPA to serve the area. The new NPA, 630, will go into service at 2 a.m. on January 7, 1995. The 630 NPA will be assigned within the same geographic area where the existing 708 and 312 NPAs are in effect. This method of relief, called an overlay, will be utilized instead of the traditional NPA split. Some number changes in the 708 NPA will be required as described herein.

Ameritech informs us that assignment of numbers from the 630 NPA will be made initially to wireless carriers, e.g., pagers and cellular carriers, as follows:

- Beginning January 7, 1995, all cellular phones and pagers currently programmed with the 708 NPA will change to the 630 NPA in a gradual, phased manner.
- Also, beginning January 7, 1995, all cellular phones and paging services ordered in the existing 312 or 708 NPAs will be assigned to the 630 NPA.
- Effective August 1, 1994, no 708 NPA phone numbers will be issued for cellular service. Customers will be given numbers in adjacent area codes.

Other services, including wireline services, eventually will be assigned numbers in the 630 NPA.

Dialing procedures will be similar to those in use today:

- When calling from one 630 NPA number to another 630 NPA number, dial only the 7-digit number, i.e., NXX + XXXX.
- When calling from a 630 NPA number to a number outside the 630 NPA, dial 1 + NPA + NXX + XXXX.

Letter Number EL 94/08-004	Type Informational	Date 8/9/94	Page No. 2
Title NANP-Overlay of 708 (Illinois) Numbering Plan Area (NPA)		See Character External Project Number(s) 2W4011	

- When calling from outside 630 NPA to a 630 NPA number, dial 1 + 630 + NXX + XXXX.
- All operator assisted calls including credit card, collect, and third party calls will be dialed with a "0" prefix and 10 digits, i.e., 0 + NPA + NXX + XXXX.

The attached map illustrates the 708 and 630 configuration after the overlay. A listing of the NXX's that will move from the 708 NPA to the 630 NPA, including the affected communities, is also attached.

Test calls to verify routing to the new NPA can be made by calling 1-630-204-1204, effective immediately. A recorded announcement will indicate that the test call has been successfully completed.

Operational questions concerning the overlay and dialing procedure changes may be directed to Jerry Waller at (414) 523-8822 or Lisa Robertson at (312) 220-2047. Customers needing more specific information about their cellular or paging services, e.g., reprogramming of cellular phones, should contact their cellular or paging service providers.

Copies of this letter are being forwarded to achieve the widest possible industry distribution and may be reproduced for further distribution as needed. Questions concerning the contents of this letter may be referred to Jim Deak, Bellcore, at (201) 740-4594.
