Abstract

This IL provides industry notification of the impending split of the 503 NPA and the notification of a 'jeopardy' situation in the 503 NPA.

Letter Information (Includes safety liability disclaimer (if applicable), ordering information, originator's signature information)

We have been advised by US WEST that substantial telephone number growth in the State of Oregon necessitates relief for the existing 503 Numbering Plan Area (NPA). A plan to provide numbering relief has been approved by the Oregon Public Utilities Commission which calls for a split of the 503 NPA and the simultaneous introduction of a new 541 NPA.

We have also been advised by US WEST that the 503 NPA is in a 'jeopardy' situation due to the strong probability that the remaining supply of assignable central office codes will exhaust prior to the end of the permissive dialing period. According to the *Central Office Code (NNXINXX) Assignment Guidelines*, "A jeopardy condition exists when the forecasted and/or actual demand for NXX resources will exceed the known supply during the planning/implementation interval for relief." Assignment procedures for the jeopardy situation will be in accordance with the above assignment guidelines.

The 503 NPA will be retained in the northwest corner of the state to include the Portland and Salem metropolitan areas within the Portland Local Access and Transport Area (LATA). The remainder of the Portland LATA plus the entire Eugene LATA and the portion of the Idaho LATA which extends into Oregon will be transferred to the new 541 NPA.

The split of the 503 NPA, and the beginning of an eight-month permissive dialing period, will take place 12:01 AM on Sunday, November 5, 1995. The permissive dialing period will end 12:01 AM on Sunday, June 30, 1996. During the permissive dialing period either 503 or 541 will be acceptable in a dialed number terminating in the new 541 NPA. After the permissive period, calls dialed with incorrect NPA codes, as defined in the NPA split information published in the Local Exchange Routing Guide (LERG), will be routed to intercept.

Letter Number IL-95/05-007	Type Informational	Date 5-19-95	Page No. 2
Title NANP-Split of 503 (Oregon) Numbering Plan Area (NPA)		Project Number(s) 5V1000.17	

All international and domestic carriers are asked to ensure that the new 541 NPA has been activated throughout their networks prior to November 5, 1995. A test number will be activated in the Eugene 10th Avenue switch by October 15, 1995. The test number will be 541-334-0057. Local exchange carriers, alternative access providers, PBX equipment vendors and others are also being asked to make this number available to *business* customers by the start of permissive dialing.

The dates that switching systems in the new 541 NPA will begin transmitting "541" in the calling number Automatic Number Identification (ANI) will be coordinated by US WEST with the interexchange carriers. Attachment A shows a map of Oregon with the new 541 NPA and the reduced 503 NPA. Attachment B provides a listing of all NXX codes and offices which will remain in the 503 NPA, and Attachment C lists the codes and offices which will transfer to the new 541 NPA.

The dialing plan for the new 541 and 503 NPAs will be the same:

- All home NPA (HNPA) "local" calls will be dialed on a 7 digit basis with no prefix; i.e., NXX + XXXX (7 digits).
- All foreign NPA (FNPA) "local" calls will continue to be dialed on a 7 digit basis with no prefix, i.e., NXX + XXXX (7 digits).
- All HNPA direct dialed "toll" calls will be dialed with a prefix "1" and 10 digits; i.e., 1 + HNPA + NXX + XXXX (1 + 10 digits).
- All FNPA direct dialed "toll" calls will be dialed with a prefix "1" and 10 digits; i.e., 1 + FNPA + NXX + XXXX (1 + 10 digits).
- Operator assisted calls including credit card, collect, and third party calls will be dialed with a "0" prefix and 10 digits; i.e., 0 + NPA + NXX + XXXX (0 + 10 digits).

Operational questions concerning the split of the 503 NPA and the introduction of the new 541 NPA may be referred to Jack Ott, US WEST, on (303) 707-7005.

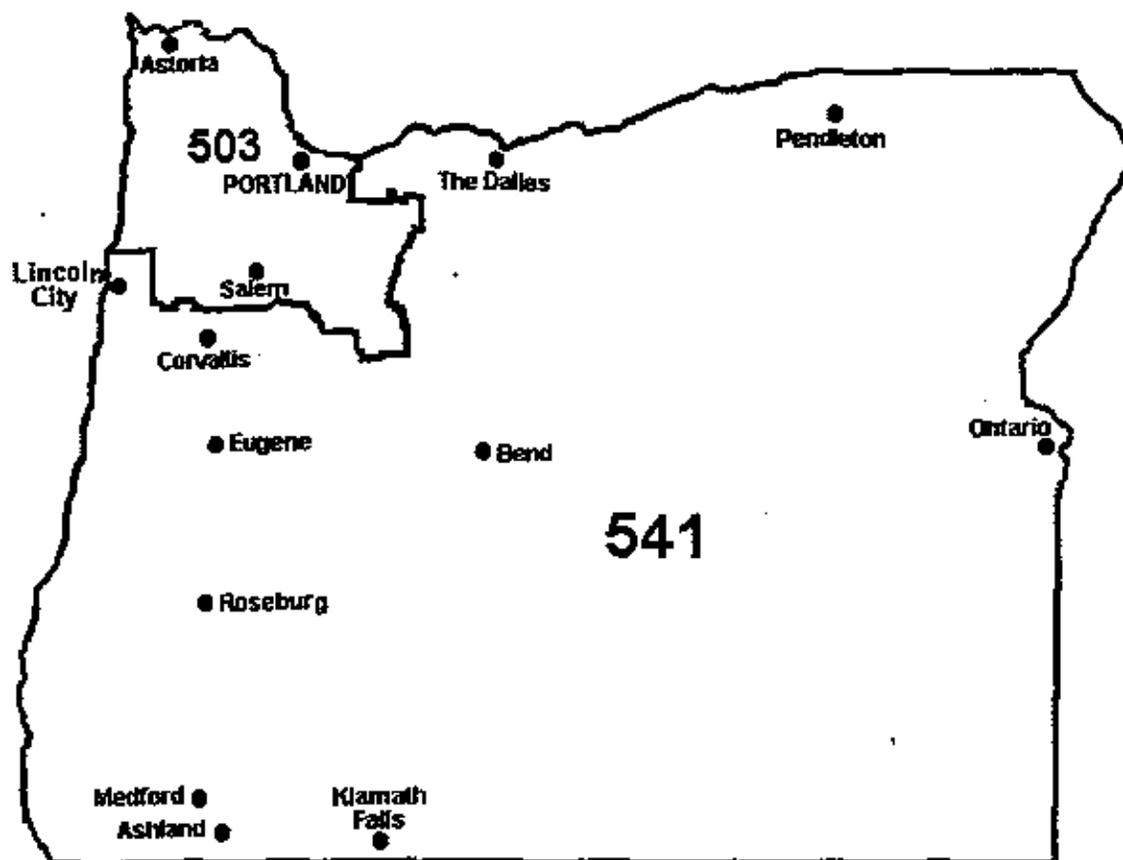

Copies of this letter are being forwarded to achieve the widest possible industry distribution and may be reproduced for further distribution as needed. Questions concerning the contents of this letter may be referred to Jim Deak, Bellcore, at (908) 699-6612.
