Abstract

This IL provides industry notification of the impending split of the 305 NPA

Letter Information (includes safety liability disclaimer (if applicable), ordering information, originator's signature information)

We have been advised by BellSouth Telecommunications that substantial telephone number growth in southeastern Florida necessitates splitting the existing 305 NPA and the simultaneous introduction of a new 954 NPA.

Dade and Monroe Counties, which include the Miami metropolitan area, will retain the 305 NPA. The Broward County portion of the current 305 NPA, including Fort Lauderdale, will change to the new 954 area code.

The split of the 305 NPA, and the beginning of a permissive dialing period, is scheduled for 12:01 AM EDT on September 11, 1995. During the permissive dialing period, either 305 or 954 will be acceptable in a dialed number terminating in the new 954 NPA. The end of permissive dialing and the beginning of mandatory dialing is scheduled for different services as follows: 12:01 AM EDT on April 13, 1996 for pagers; 12:01 AM EDT on June 1, 1996 for wireline (POTS); and 12:01 AM EST on January 1, 1997 for cellular. After each permissive period expires, calls dialed with incorrect NPA codes, as defined in the NPA split information published in the Local Exchange Routing Guide (LERG), will be routed to intercept. The 954 NPA prefix codes (NXXs) appear in the current version of the LERG.

Central offices in the area to be served by the 954 NPA will be modified on a progressive basis to transmit "954" in the calling number Automatic Number Identification (ANI). BellSouth will convert all pertinent records to 954 the weekend of September 8, 1995. This includes customer service records and associated NPA information in other systems. After September 11, 1995, all inquiries must refer to the correct NPA code.

The attached map illustrates the 305 and the 954 NPA configuration after the split. A listing of the communities and exchange prefixes to be included in each area code after the split is also attached.
