Abstract  
**This IL provides industry notification of the impending split of the 619 NPA in southern California.**

Letter Information (Includes safety liability disclaimer (if applicable), ordering information, originator's signature information)

We have been advised by Pacific Bell that substantial telephone number growth in southern California necessitates splitting the existing 619 NPA and the simultaneous introduction of a new 760 NPA.

The City of San Diego and surrounding communities in the southern portion of San Diego County will retain the 619 NPA and the remaining area in the current 619 NPA will be assigned to the new 760 NPA.

The split of the 619 NPA, and the beginning of a permissive dialing period, will take place at 2:00 AM PST on Saturday, March 22, 1997. The permissive dialing period will end at 2:00 AM PDT on Saturday, September 27, 1997. During the permissive dialing period, either the 619 or 760 NPA will be acceptable in a dialed number terminating in the new 760 NPA for all NXXs in service prior to the beginning of the permissive period. Callers who continue to dial the 619 NPA for calls terminating in the new 760 NPA after the end of the permissive period will hear a recording instructing them to use the 760 NPA. This recording will be in use until 2:00 AM PST, Saturday, March 27, 1997 after which time these calls will be routed to intercept. Calls to NXXs assigned in either the 619 or 760 NPAs after the beginning of the permissive period must be dialed using the correct NPA, otherwise they may be routed to an incorrect destination, or they may be routed to intercept.

The attached map illustrates the 619 and 760 configuration after the split. Also attached are listings of central offices and associated NXXs to be served in each area code after the split sorted by NXX and by Locality. The NXXs on the attached are those in effect as of 3/12/96. Revisions to the NXX listing may be found either in the Local Exchange Routing Guide (LERG) or the NPA NXX Activity Guide (NNAG). Current information concerning NXXs in these publications is available by license contract from the Bellcore Traffic Routing Administration (TRA) group, which can be contacted by dialing the TRA Hotline at (908) 699-6700.

Letter Number IL 96-04-009	Type Informational	Date 4/22/96	Page No. 2
Title Six Character External Project Number(s) NANP-Split of 619 (California) Numbering Plan Area (NPA)		Project Number(s) 5V2020.01	

All international and domestic carriers are asked to ensure that the new 760 NPA has been activated throughout their networks prior to March 22, 1997. Test calls to verify routing to the 760 NPA can be made by dialing the following test numbers, effective May 18, 1996: 760-200-0760, 760-400-0760 or 760-600-0760. A recorded announcement will indicate that the test call has been successfully completed. The 760 test numbers will be disconnected in June, 1997. It is not expected the test numbers can be reached from outside the 730, 732 or 973 Local Access and Transport Areas (LATAs) until shortly before the beginning of permissive dialing.

Current dialing procedures will be used in the 760 NPA, namely:

- All home NPA (HNPA) local and toll calls within the 760 NPA, may be dialed on a 7 digit basis, i.e., NXX + XXXX (7 digits), or with a prefix "1" and 10 digits, i.e., 1 + HNPA + NXX + XXXX (1 + 10 digits), as desired.
- All foreign NPA (FNPA) local and toll calls outside the 760 NPA will be dialed with a prefix "1" and 10 digits, i.e., 1 + FNPA + NXX + XXXX (1 + 10 digits).
- All operator assisted calls, including credit card, collect, and third party calls, will be dialed with a "0" prefix and 10 digits, i.e., 0 + NPA + NXX + XXXX (0 + 10 digits).

Pacific Bell has indicated the 619 NPA remains in a jeopardy situation as described in Bellcore Informational Letter, IL 96/03-003, which was invoked in accordance with the *Central Office Code (NXX) Assignment Guidelines* (document No. INC 95-0407-008).

General questions concerning the split of the 619 and 760 NPAs may be directed to the California code administrator, Bruce Bennett, Pacific Bell, at 510-823-2880. Questions of a technical nature should be directed to the NPA project coordinator, Joyce Gilcrease, Pacific Bell, at 619-886-2259.

Copies of this letter are being forwarded to achieve the widest possible industry distribution and may be reproduced for further distribution as needed. Questions concerning the contents of this letter may be referred to Jim Deak, Bellcore, at 908-699-6612.
