

PORTABLE HOMELITE
GASOLINE-ELECTRIC GENERATOR

NOTES CONCERNING THIS ADDENDUM

This addendum supplements Section J6.904 and has been issued to provide for the grounding of hand tools operated from a portable electric generator.

The cross-reference, "See Addendum," should be noted following Paragraph 7.01 to indicate the inclusion of additional instructions.

8. SAFETY PRECAUTIONS

8.01 The noncurrent carrying metal parts of hand tools, when operated from a portable electric generator, shall be grounded to the frame of the generator. The use of a B cord adapter will facilitate making the ground connection.
