Revision history

May 2007

Standard 01.02. This document is upissued to support changes in Communication Server 1000 Release 5.0.

May 2007

Standard 01.01. This document is issued to support Communication Server 1000 Release 5.0. This document is renumbered and replaces Library Reference: Communication Server 1000 (553-3001-000).

August 2005

Standard 1.00. This document is issued to support Communication Server 1000 Release 4.5.

How to get Help

This chapter explains how to get help for Nortel products and services.

Getting help from the Nortel web site

The best way to get technical support for Nortel products is from the Nortel Technical Support web site:

www.nortel.com/support

This site provides quick access to software, documentation, bulletins, and tools to address issues with Nortel products. From this site, you can:

- download software, documentation, and product bulletins
- search the Technical Support Web site and the Nortel Knowledge Base for answers to technical issues
- sign up for automatic notification of new software and documentation for Nortel equipment
- open and manage technical support cases

Getting help over the phone from a Nortel Solutions Center

If you do not find the information you require on the Nortel Technical Support web site, and you have a Nortel support contract, you can also get help over the telephone from a Nortel Solutions Center.

In North America, call 1-800-4NORTEL (1-800-466-7835).

Outside North America, go to the following web site to obtain the telephone number for your region:

www.nortel.com/callus

Getting help from a specialist by using an Express Routing Code

To access some Nortel Technical Solutions Centers, you can use an Express Routing Code (ERC) to quickly route your call to a specialist in your Nortel product or service. To locate the ERC for your product or service, go to:

www.nortel.com/erc

Getting help through a Nortel distributor or reseller

If you purchased a service contract for your Nortel product from a distributor or authorized reseller, contact the technical support staff for that distributor or reseller.

Using the library

Order codes

For ordering purposes, documents in the CS 1000 Release 5.0 library are identified by order codes.

Note: Order codes change with each product or library release.

NTP number

An NTP number is assigned to a document for identification purposes. NTP numbers have the following format: NN-ABBBB-CDD, where:

- NN — Nortel Networks
- A — line of business. For example, 4 represents Enterprise
- BBBB — product code. For example:
 - 3xxx references documents that contain Communication Server 1000, Meridian 1, and IP Phones products
 - 3011 references documents that contain Communication Server 1000M Cabinet and Chassis information
 - 3021 references documents that contain Meridian 1 PBX (61C and 81C), Communication Server 1000M (Single Group and Multi Group) information
 - 3041 references documents that contain Communication Server 1000E information
- C — specific category of information. For example:

- 1 represents Product Fundamentals
 - 2 represents Planning and Engineering
 - 3 represents Installation and Commissioning
 - 4 represents Upgrades and Patches
 - 5 represents Operations
 - 6 represents Administration and Security
 - 7 represents Fault and Performance Management
- DD — sequential digits

Note: For multiple volumes, a volume number is appended to the document number. For example, NN-ABBBB-CDD_V1

Product Bulletins and Release Notes

Product Bulletins are intended to communicate information about a new or existing product, including technical introductions to new products. Authorized distributors are able to access Product Bulletins through the Partner Information Center, located on the Nortel web site.

A Release Note describes a design change or a product feature that was discovered after market release. Often, a Release Note describes how to work around a product limitation.

Product Bulletins and Release Notes for Nortel Communication Server 1000 products are accessed from the Nortel web site at www.nortel.com. This web page displays a list of product family names, which expand to display a list of products and collections.

To access the Product Bulletins and Release Notes:

- 1 Click **Support & Training > Technical Support > Technical Documentation**.

The **Technical Support** window opens.

- 2 Select the **Browse Product Support** tab.
- 3 From the drop-down list under 1 **Select from Product Categories**, select **Communication Servers/ Enterprise Communication Servers or Meridian** (depending on the applicable system).
- 4 From the drop-down list under 2 **...choose a product ...**, select the desired system type.
- 5 From the drop-down list under 3 **... and get the content.**, select **Documentation** and click **Go**.

Documentation changes for CS 1000 Release 5.0

Contents

This section contains information on the following topics:

Obsolete content	13
NTPs and User Guides introduced in CS 1000 Release 5.0	13
NTPs and User Guides in CS 1000 Release 5.0	16

Obsolete content

The Communication Server 1000 Release 5.0 library does not contain obsolete hardware and software information. The Communication Server 1000 Release 5.0 document suite is available in Helmsman on the Nortel web site.

NTPs and User Guides introduced in CS 1000 Release 5.0

[Table 1 on page 14](#) lists the NTPs introduced in Communication Server 1000 Release 5.0

Note: The Features and Services Fundamentals NTP is now six volumes. Volumes four, five, and six are introduced in this release. The ISDN Primary Rate Interface Features Fundamentals NTP is now three volumes. Volumes two and three are introduced in this release.

NTPs and User Guides in CS 1000 Release 5.0

Documents in CS 1000 Release 5.0 have been renumbered. Some documents have new document titles.

See [Table 2](#) for a list of the Communication Server 1000 Release 5.0 document suite (excluding the documents listed in [Table 1](#)).

Note 1: Some documents may not have been updated to reflect the new NTP number. If this situation occurs, the previous NTP number will apply.

Note 2: The User Guides and Quick Reference Cards are available on the Nortel Communication Server 1000 CD-ROM

Table 2: New document numbers and titles in CS 1000 Release 5.0

Appendix A: Terminology

Contents

This section contains information on the following topics:

Product families terminology	35
Terminology history	36
Branch Office	36
Communication Server for Enterprise 1000 (CSE 1000).....	37
i2050 Mobile Voice Client.....	37
Internet Telephone/IP Phone	38
Incremental Software Management	38
Meridian	39
Media Gateway.....	39
Peripheral Equipment (PE).....	40
Remote Office 9150	40
Succession	40

Product families terminology

In Communication Server 1000 Nortel Technical Publications (NTPs), the following systems are referred to generically as “system”:

- Communication Server 1000M (CS 1000M)
- Communication Server 1000E (CS 1000E)
- Meridian 1

The following systems are referred to generically as “Small System”:

- Meridian 1 PBX 11C Chassis
- Meridian 1 PBX 11C Cabinet

The following systems are referred to generically as “Large System”:

- Communication Server 1000M Single Group (CS 1000M SG)
- Communication Server 1000M Multi Group (CS 1000M MG)
- Meridian 1 PBX 61C
- Meridian 1 PBX 81C

Terminology history

Branch Office

In Succession 3.0, the term “*branch office*” was used as follows:

- *To refer to a place or location.* In this case, the term was not capitalized. For example, “The MG 1000B platform is designed to support a *branch office*.”
- *To refer to a service option* that extended Succession 1000 functionality to a remote site. In this case, the term was capitalized. For example, “The *Branch Office* service offers survivability.”
- *To refer to a hardware platform* comprised of Media Gateway components. In this case, the term was capitalized. For example, “The *Branch Office* is comprised of an MG 1000B Core and an optional MG 1000B Expander.”

In CS 1000 Release 4.0, the term “*branch office*” was used as follows:

- *To refer to a place or location.* In this case, the term is not capitalized.
- *To refer to a service option* that extends CS 1000 functionality to a remote site. In this case, the term is capitalized.

To refer to the hardware platform or hardware components that support a Branch Office configuration, the term *Media Gateway 1000B (MG 1000B)*

is used. For more information, see *Branch Office Installation and Commissioning* (NN43001-314).

Communication Server for Enterprise 1000 (CSE 1000)

In CSE Release 2.0 (also known as “X21”), the term “*CSE 1000*” referred to an IP-based PBX. In Succession Release 3.0, the term “*CSE 1000*” was replaced by “*Succession 1000*”. In CS 1000 Release 4.0, the term “*Succession 1000*” was replaced by “*Communication Server 1000*”.

Table 3 shows how this change has been implemented in product names.

Table 3: Terminology changes: Communication Server for Enterprise (CSE)

Succession 3.0	CS 1000 Release 4.0
CSE 1000	Communication Server 1000
CSE 2000	Communication Server 2000
CSE MX	Multimedia Communication Server 5100 (MCS 5100)

i2050 Mobile Voice Client

In CS 1000 Release 4.0, the term “*i2050 Mobile Voice Client*” was replaced by “*Mobile Voice Client 2050*”.

Internet Telephone/IP Phone

In CS 1000 Release 4.0, the term “*Internet Telephone*” was replaced by “*IP Phone*”. [Table 4](#) shows how this change has been implemented in product names.

Table 4: Terminology changes: Internet Telephone

Succession 3.0	CS 1000 Release 4.0
i2001 Internet Telephone	IP Phone 2001
i2002 Internet Telephone	IP Phone 2002
i2004 Internet Telephone	IP Phone 2004
i2050 Software Phone	IP Softphone 2050
i24 Key Expansion Module	IP Phone Key Expansion Module
Internet Telephone Installer Password	IP Phone Installer Password
Temporary Internet Telephone Installer Password	Temporary IP Phone Installer Password

Incremental Software Management

In CS 1000 Release 4.0, the term “*Incremental Software Management*” was replaced by “*License*”. [Table 5](#) shows how this change has been implemented in product names.

Table 5: Terminology changes: Incremental Software Management

Succession 3.0	CS 1000 Release 4.0
ISM parameters	Licenses
SIP Virtual Trunks ISM	SIP Access Port License
IP Peer H.323 Trunks ISM	H.323 Access Port License
IP User ISM (High-end)	IP User License

Table 5: Terminology changes: Incremental Software Management

Succession 3.0	CS 1000 Release 4.0
IP User ISM (Low-end)	Basic IP User License
Wireless User ISM	DECT User License
Wireless Visitor User ISM	DECT Visitor User License

Meridian

The term “*Meridian*” represents a Nortel product family. In CS 1000 Release 4.0, the term “*Meridian*” was removed from several product names. [Table 6](#) shows how this change has been implemented.

Table 6: Terminology changes: Meridian

Succession 3.0	CS 1000 Release 4.0
Meridian Integrated Call Assistant (MICA)	Integrated Call Assistant
Meridian Integrated Conference Bridge (MICB)	Integrated Conference Bridge
Meridian Integrated Personal Call Director (MIPCD)	Integrated Call Director
Meridian Integrated Recorded Announcement (MIRAN)	Integrated Recorded Announcer
Meridian Integrated Voice Service (MIVS)	Hospitality Integrated Voice Services

Media Gateway

The term “*Media Gateway*” refers to a hardware platform that is used in CS 1000 systems. In a *CS 1000E*, the Media Gateway platform is called a *Media Gateway 1000E*. The *Media Gateway 1000T* platform is an additional option.

The term “*Media Gateway*” can also refer to the components that comprise a Media Gateway platform. In this context, one can use the terms “*Media Gateway*” and “*Media Gateway Expander*.” In the past, a Media Gateway was called a “*WAN Gateway*”.

Peripheral Equipment (PE)

On CS 1000 systems, Intelligent Peripheral Equipment (IPE) is supported, but Peripheral Equipment (PE) is not supported.

Remote Office 9150

In CS 1000 Release 4.0, the term “*Remote Office 9150*” was replaced by “*Remote Gateway 9150*”.

Succession

The term “*Succession*” represents a Nortel product family. Within this family, the term “*Succession 1000*” represents the name of an IP-based PBX, while “*Succession Call Server*” represents the name of a component.

In CS 1000 Release 4.0, the family name “*Succession*” was replaced by “*CS 1000*”, while the product name “*Succession 1000*” was replaced by “*CS 1000*”.

In addition, the term “*Succession*” was removed from the name of several components in CS 1000 systems (CS 1000E, CS 1000M, and CS 1000).

[Table 7](#) shows how this change has been implemented.

Table 7: Terminology changes: Succession

Succession 3.0	CS 1000 Release 4.0
Succession 1000	Communication Server 1000
Succession 2000	Communication Server 2000
Succession Branch Office	Media Gateway 1000B
Succession Call Server	Call Server

Table 7: Terminology changes: Succession

Succession 3.0	CS 1000 Release 4.0
Succession Element Manager	Element Manager
Succession Media Card	Media Card
Succession Signaling Server	Signaling Server
Succession System Controller	Small System Controller
