Speech Activated Messaging

You can speak CallPilot voice and fax commands into your telephone handset. Use these speech commands:

Call	**Print**
Call the sender	**Record**
Call another number	**Re-record**
Cancel	**Reply to all**
Change list	**Reply to the sender**
Compose	**Restore/Undelete**
Continue	**Return to messages**
Continue recording	**Send**
Delete	**Skip back**
Forward	**Skip forward**
Good-bye CallPilot	**Slow down**
Help	**Speed up**
Next message	**Stop**
No	**Yes**
Play	**One, Two, Three, Four,**
Play envelope	**Five, Six, Seven,**
Previous message	**Eight, Nine, Zero/Oh**

Switch from speech to keypad commands at any time by entering a keypad command, then return to speech commands by pressing **8 5 4**. To improve speech recognition, you can record a selected list of custom commands in your own voice.

Desktop Messaging

You can log in to CallPilot through your e-mail to receive and send CallPilot messages. You can play and record voice messages, view and create faxes, delete, reply, forward, call the sender, compose new messages, attach files, create distribution lists, and change your password.

My CallPilot

You can log in to web-based My CallPilot from most computers with Internet access.

CallPilot Messages
Receive and send your CallPilot messages.

CallPilot Features
View and change your mailbox features and options, and My CallPilot preferences.
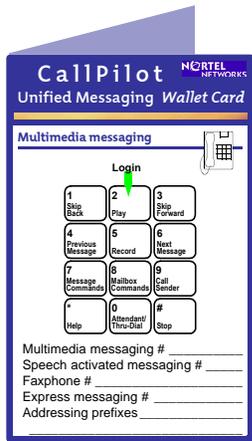

Useful Information
View personalized user information for your mailbox, and view or print CallPilot user guides.

Access to e-mail
Receive e-mail from one or more of your e-mail accounts.

Remote text notification
Receive notification of new CallPilot messages on an e-mail device. Set up in My CallPilot.
