ADDENDUM P30.752
Issue A, 9-1-39
Long Lines Department

NO. 19 TELETYPEWRITER SET

REMOTE CONTROL OF TYPING UNIT ONLY

PRIVATE LINE STATIONS

1. GENERAL

1.01 This addendum supplements Section P30.752 to make that section applicable for use for No. 19 teletypewriter sets arranged per Connection Plan L9.08.

1.02 Connection Plan L9.08 gives instructions for modifying the No. 19 teletypewriter set so that its transmitter-distributor can be used independently from the remainder of the set when the typing unit is arranged for remote motor control.

1.03 When Connection Plan L9.08 is applied, the break contacts shall be eliminated from the transmitter-distributor circuit. This is done by modification of the connections shown in Figures 1 and 2 as covered in Paragraph 2.01.

2. MODIFICATIONS

2.01 Remove the power wire shown connected to terminal 43 and reconnect it to terminal 26 in both a-c and d-c power installations.
