

15M PERFORATOR REQUIREMENTS, PROCEDURES, AND LUBRICATION

1. GENERAL

1.001 This addendum supplements Section P36.640, Issue 1, which contains the apparatus requirements, adjusting procedures, and lubrication instructions for the maintenance of the 15M perforator.

1.002 This addendum is issued to bring up to date the tension requirements for the antichatter lever spring.

2. REQUIREMENTS AND PROCEDURES

The following change applies to Part 2 of the section:
