

# **WIRING DIAGRAMS**

## **20-TYPE**

### **TELETYPEWRITER APPARATUS**

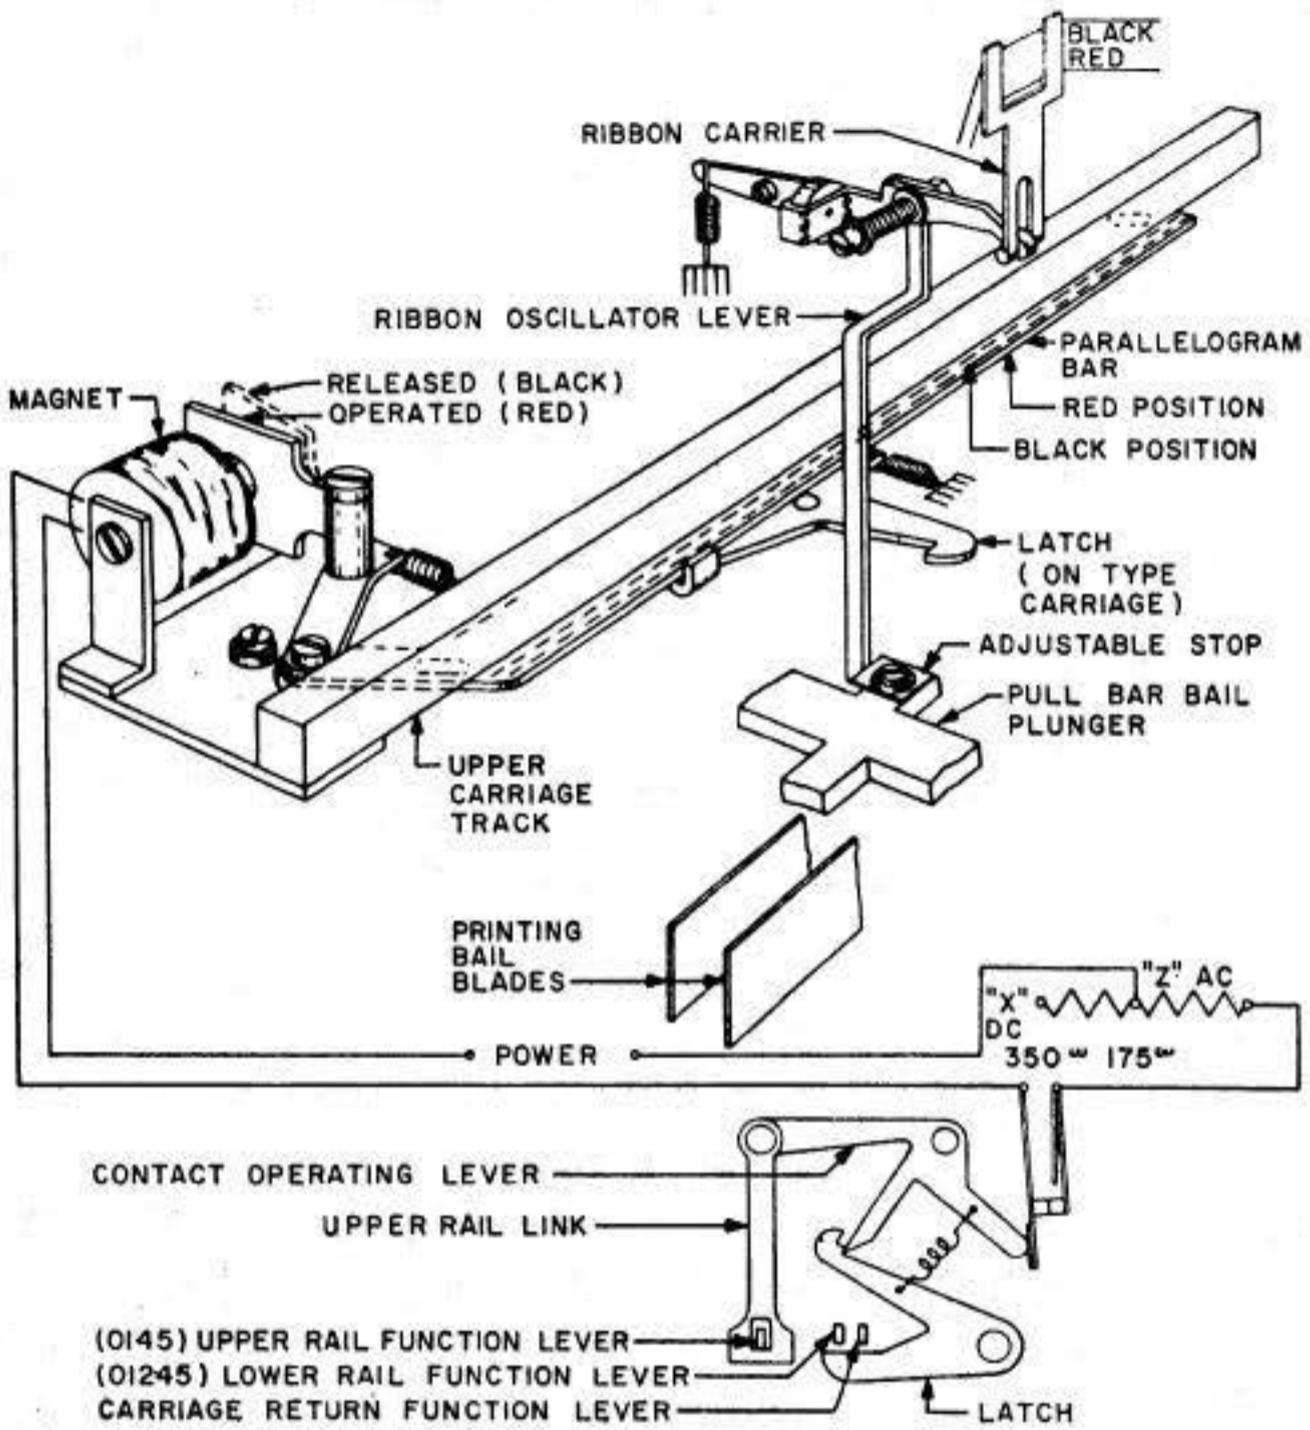

#### **1. GENERAL**

1.01 This section gives the wiring of the various apparatus units of the 20-type teletypewriter as delivered from the factory.

1.02 This section is reissued to add information concerning the wiring of two-color ribbon mechanism.

1.03 Wiring diagrams are found as follows:

Typing Unit Keyboard Unit Base	} See Section P36.301, Issue 6, Fig. 18 except that the sending contacts have six selecting contacts instead of five. For wiring of two-color ribbon mechanism see Fig. 1, herewith.
Reperforator	See Section P35.332.
Transmitter-Distributor	See Section P35.331 except that the distributor has the additional 0 segment after No. 5 segment and the additional 0 sending contact adjacent to the No. 1 contact connected by a black wire.
