

APPLICATION GUIDE FOR THE PREPARATION OF DETAILED
COMMON CONTROL CENTRAL OFFICE EQUIPMENT REQUIREMENTS

Purpose: The purpose of this addendum is to add instructions for requesting International Direct Distance Dialing (IDDD).

ADDITION:

10.5 When International Direct Distance Dialing is to be equipped, a note stating this must be added in item 10. This will require the two- and three-digit access codes plus the 12-digit dialing shown in paragraph 1.2(c) of Part I. Before specifying IDDD, the appropriate section of "Notes on Distance Dialing" should be studied.

10.51 A suggested wording is as follows:

The system must be capable of handling and properly routing the following subscriber International Direct Distance Dialing procedures:

Station-to-Station Unassisted Calls -
011 + CC + NN

Customer Dialed Operator Serviced Calls -
01 + CC + NN

"CC" is country code one, two, or three digits.
"NN" is national number.

CC + NN is not to exceed 12 digits.
