INCOMING INTERCEPTING TRUNKS

General Description

The No. 19 operating room desk is a centralized desk for handling auxiliary services in toll or local central offices.

The types of auxiliary services that may be provided are information, intercepting, rate and route, ticket filing and charge quoting. Any one or all of these services may be combined on the desk, and in addition, monitoring jacks may be provided for use in connection with supervisory work.

A book rack may be provided for the storing of books, directories, etc., and when provided is located on top of the desk section.

The desk is a single position three panel section. One or more sections may be

placed side by side to form a continuous lineup.

This desk has a maximum capacity as follows:

<u>Face Equipment - 6 Panel Multiple</u>	<u>Capacity</u>
Incoming Trunks (10 per strip)	170
Outgoing Trunks (20 per strip)	20
Tie Lines (10 per strip)	10
Monitoring and Observing Jacks (20 per strip)	110

Position Equipment

Cord Circuit (double ended)	1
Cord Circuits (single ended)	3
