Veeam Backup *for Microsoft Azure*

Azure-native backup and recovery

Challenge

Microsoft Azure provides a robust cloud platform for you to create and deploy applications without the burden of maintaining your own infrastructure. However, as referenced in the Microsoft Shared Responsibility Model, your applications and data remain your responsibility to secure and protect.

Veeam Backup *for Microsoft Azure* delivers native, policy-based protection for reliable recovery from accidental deletion, ransomware and other data loss scenarios. An API-first approach, immutable backups and full- and file-level restore ensure resilient protection that's easy and cost-optimized, freeing up time and resources for strategic IT priorities.

✓ **Powerful set-it-and-forget-it backup**

✓ **Secure access and data management to overcome ransomware**

✓ **Powerful recovery options that keep businesses productive**

✓ **Zero-fuss backup that meets SLAs**

Key capabilities

Relentless security

- **Immutable and encrypted**
  Data integrity through WORM state and encryption

- **Isolated backups**
  Logical separation of backup data from production accounts

- **Secure access**
  Least-privilege IAM and role-based access controls (RBAC)

Fast, reliable recovery

- **Recover anywhere**
  Cross-account, region and platform* restores

- **Full- and file-level**
  Full instance or granular recovery, in place or as new

- **Simplified recovery**
  Wizard-driven, automated and self-service workflows

Zero compromise

- **Policy-based**
  Automated detection and protection with native backup

- **Cost optimized**
  Backup lifecycling to object storage with cost calculations

- **Hybrid ready**
  Operationally consistent management across the hybrid- and multi-cloud*

Latest release

- **Immutable backups**
  Data integrity through WORM state with immutable storage for Azure Blob

- **Enterprise scalability**
  Performance and efficiency enhancements for large-scale Azure environments

- **Community Edition**
 FREE Azure and hybrid cloud backup and recovery in Veeam Backup & Replication

*When combined with Veeam Backup & Replication™

"Veeam is much more than a backup provider to Frimesa.
They're offering us automated data recovery workflows for
Azure that will facilitate our ongoing journey to the cloud."

— Thiago Algeri,
CIO, Frimesa
