

# 2010 Audi A4 Cabinet Air Filter Replacement

Replace the cabinet air filter for Audi A4 2010.

Written By: Abdulhadi Alhassan

## INTRODUCTION

Replacing the cabinet air filter is recommended every 25,000 miles. It can be done by following some easy steps

## Step 1 — Cabinet Air Filter

 This fix is for 2010 Audi A4

## Step 2

- Locate the cabinet air filter under the passenger's glove box.

## Step 3

- Locate the two screws on the panel.
- By hand, turn the screws to remove them.

## Step 4

- Push the white cover to the direction of the arrow to remove it.
- *(i)* You should see the filter after you remove the white cover.

## Step 5

- Pull the filter down to remove it.

**⚠** Make sure to remember the direction of the removed filter.

To reassemble your device, follow these instructions in reverse order.
