

# 2012 Ford Fusion Headlight Replacement

Learn how to replace the headlight bulb on a 2012 Ford Fusion

Written By: Angelica

---

## INTRODUCTION

This guide will show you how to change a worn out headlight bulb for a 2012 Ford Fusion as quickly as possible

---

### TOOLS:

- [Socket Set](#) (1)
-

## Step 1 — Headlight

- Locate the hood latch and pull it to open

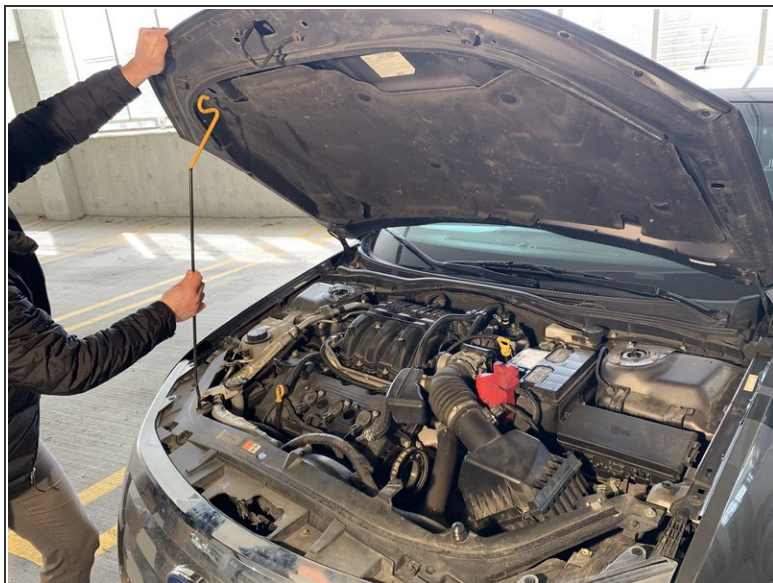

## Step 2

- The front hood will open and be caught by a safety latch. Run fingers under the hood and push the latch to the left to open the hood completely

### Step 3

- Hold up the hood with the hood support rod

### Step 4

- Remove negative terminal from the battery using a 10mm socket. Remove the bolt that is holding the negative terminal and pull terminal off the battery.

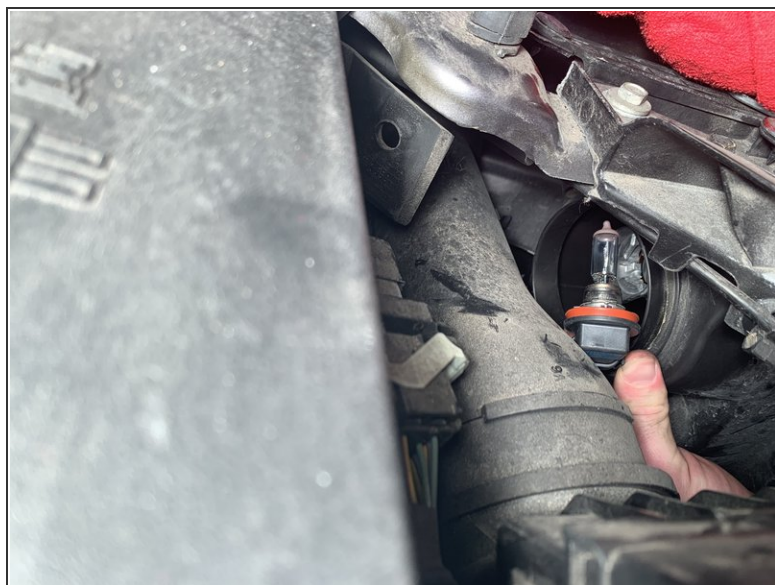

## Step 5

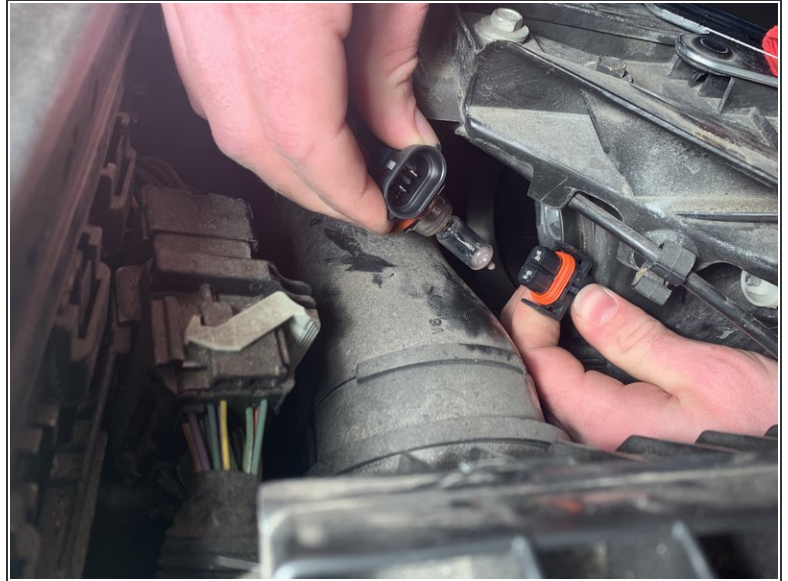

- Locate the headlight bulb in the front of the car under the hood and twist off the cap covering the headlight bulb

## Step 6

- twist the housing to the light bulb and pull it out

## Step 7

- unclip the light bulb from the housing latch and replace light bulb

To reassemble your headlight, follow these instructions in reverse order.
