

5 Tips & Tricks

HTC Desire 510 - 5 Tips & Tricks

Written By: ZFix

INTRODUCTION

- 1. Test Menu** - lets you troubleshoot hardware issues and check your phone's functionality.
- 2. Safe Mode** - all third-party apps are disabled and some settings are temporally rolled back to default settings
- 3. Developer Options** - In this menu you will find settings used for debugging and application development (like enable USB debugging). Do NOT change the settings unless you know what you are doing !!!
- 4. Info Menu** - Phone and battery information, usage statistic and Wi-Fi information.
- 5. Snapshot** - If you want to share what you see on your phone to a friend, or to save something for future reference.
