

ASUS PadFone X Station Docking Indicator Device Replacement

This guide will have you remove the docking device indicator with a pair of tweezers.

Written By: Donnie Reynolds

 **TOOLS:**

- [Tweezers \(1\)](#)
- [iFixit Opening Tools \(1\)](#)

Step 1 — Back Cover

- Using the plastic opening tools, insert it into the edge and pry open.
- Use hands to help pull the back off from the front if needed.

Step 2 — Locate SW1001

- Locate SW1001

Step 3 — Locate docking indicator device

- With tweezers gently squeeze and remove docking indicator device

To reassemble your device, follow these instructions in reverse order.
