Step 1 — Keyboard

- Power off laptop.

- Flip over the laptop so the model stickers are pointing towards the ceiling.

Step 2

- Use a Phillips #0 screwdriver to remove the six 10.5mm screws (shown in red).

- Use a Phillips #0 screwdriver to remove the four 5.5mm screws (shown in orange).

Step 3

- Turn over the laptop with the keyboard facing upwards.

- Insert a plastic opening tool under the edge of the laptop.

Step 4

- After prying open all sides of the laptop, carefully remove the keyboard from the laptop.

- Carefully remove the two cables connecting the keyboard to the laptop by popping up the white clips and sliding the connector out.

To reassemble your device, follow these instructions in reverse order.
