Step 1 — Power down your device

- Power down your device

Step 2 — Eject the SIM card

- Using the SIM card slot opener, open the SIM card slot
- Remove the SIM tray and SIM card

Step 3 — Remove the back glass panel

- Using the heat gun, heat up the edge of the back glass panel

- Using the Precision Utility Knife, pry off the glass
    - Once you have a gap, insert an Opening Pick

- Using the plastic spudger, carefully attack the adhesive and dislodge the 2.5D Gorilla Glass rear panel from the phone
