This guide will provide you with an overview of how to replace the screen on you Acer Aspire 5334-2581.

Written By: gilson teixeira

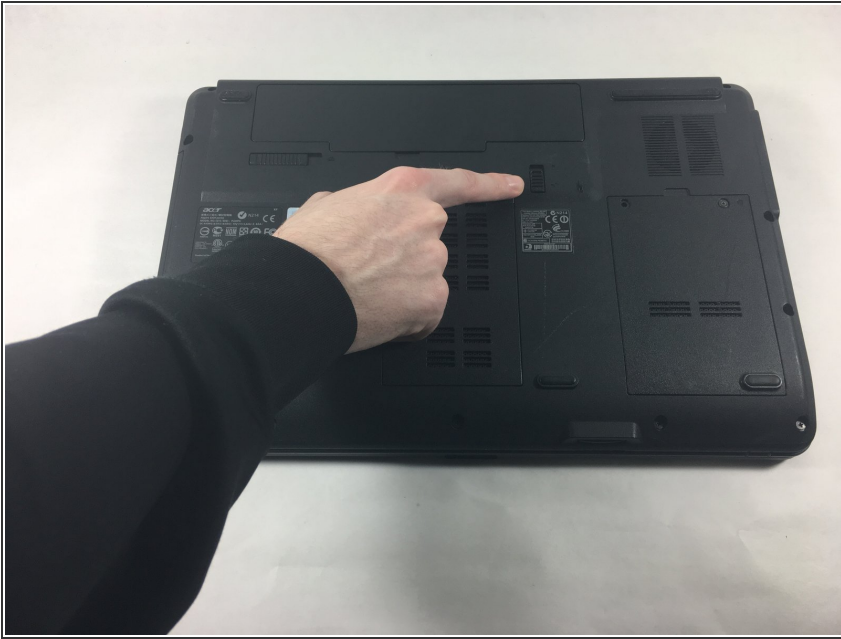

INTRODUCTION

This repair guide will provide you with a step-by-step process on how to replace the LCD on your Acer aspire 5334-2581 device.

TOOLS:

- [Metal Spudger](#) (1)
-

Step 1 — Battery

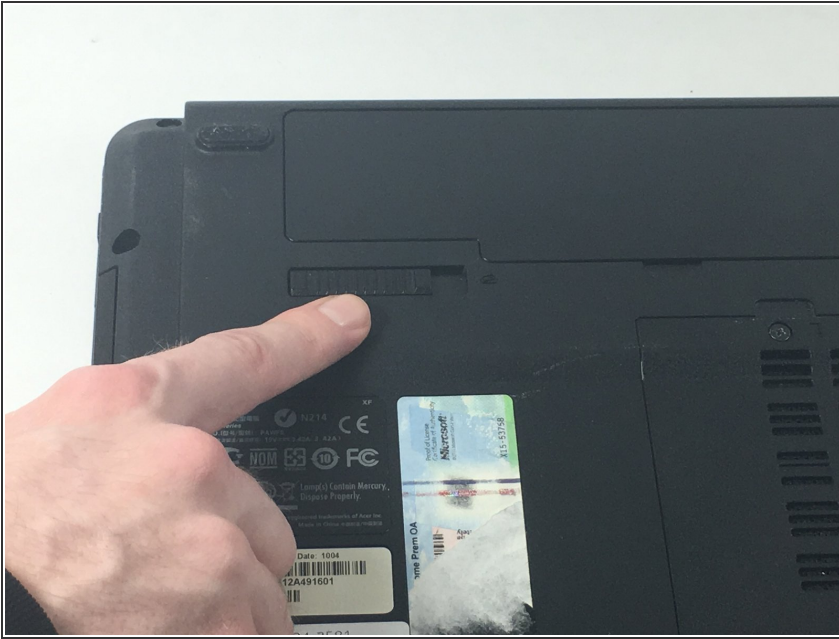

- Please make sure your device is unplugged . Turn it over slowly, and place it on a flat surface.

Step 2

- This latch holds your battery in place, it should always be locked. Make sure to unlock this piece.
- ⚠ Do not break this latch, otherwise your battery will not hold in place.

Step 3

- Locate the eject latch and push it so the battery can come out.
- The battery will lift up once you have pushed the latch.
- ★ You DO NOT need to adjust the latch when replacing the new battery, because it just snaps in place.

Step 4

- Lift the battery up, and it should just come right off. You should see the label with the part number.

Step 5 — Screen

- Remove the 4 rubber supports from the screen. Then remove the screws underneath.

Step 6

- With a spudger, release the clips that hold the plastic frame to the back cover.
- ⓘ Be careful while handling the bottom, there are cable connections, and you don't want to damage them

Step 7

- With caution disconnect the camera cable.

Step 8

- Remove the 4 screws in the side of the LCD. Screen should be able to come off the frame

Step 9

- Take the screen and flip on top of the keyboard.
 - Unplug the cable connected to the video card.
- ⚠ Don't use too much force, you don't want to damage this component.

Step 10

- Remove the tape, and unplug the display cable.
 - Unstick the cable from the back of the LCD, and now the LCD is free to come off. You are ready to install a new one
- ⚠ Try not to damage this cable, otherwise replacing it would be so much pain.
