

Acer Aspire 7741Z-4643 Hard Drive Replacement

This guide demonstrates a replacement on the Acer Aspire 7741Z-4643.

Written By: Greg Graham

INTRODUCTION

Whether due to accident or age, hard drives oftentimes need to be replaced. This guide will show you how to replace your laptop's hard drive with a new one.

TOOLS:

- [Phillips #0 Screwdriver \(1\)](#)

Step 1 — Hard Drive

- Begin by unscrewing the four Phillips #0 7.5mm screws holding the bottom panel.
- Then lift the panel off the laptop by the tab on its top.

Step 2

- Unscrew all the Phillips #0 6.0mm screws holding the hard drive tray to the laptop.
- Remove the hard drive tray.

Step 3

- Use the handle embedded into the hard drive to remove it from the laptop.

To reassemble your device, follow these instructions in reverse order.
