Acer Aspire R7-371T-72CF USB Chip Replacement

Use this guide to replace a USB Chip in your Acer Aspire R7-371T-72CF.

Written By: Dylan Meintser
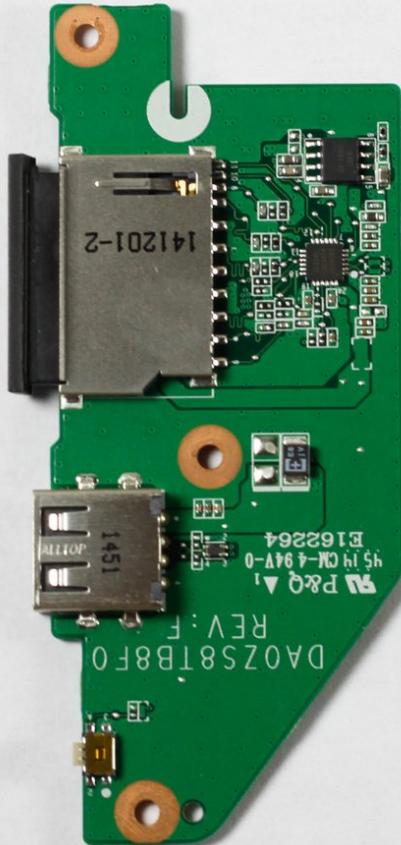

INTRODUCTION

This guide will show you the steps that need to be taken to replace a faulty USB chip.

🔧 TOOLS:

- Phillips #00 Screwdriver (1)
- iFixit Opening Tools (1)

Step 1 — USB Chip
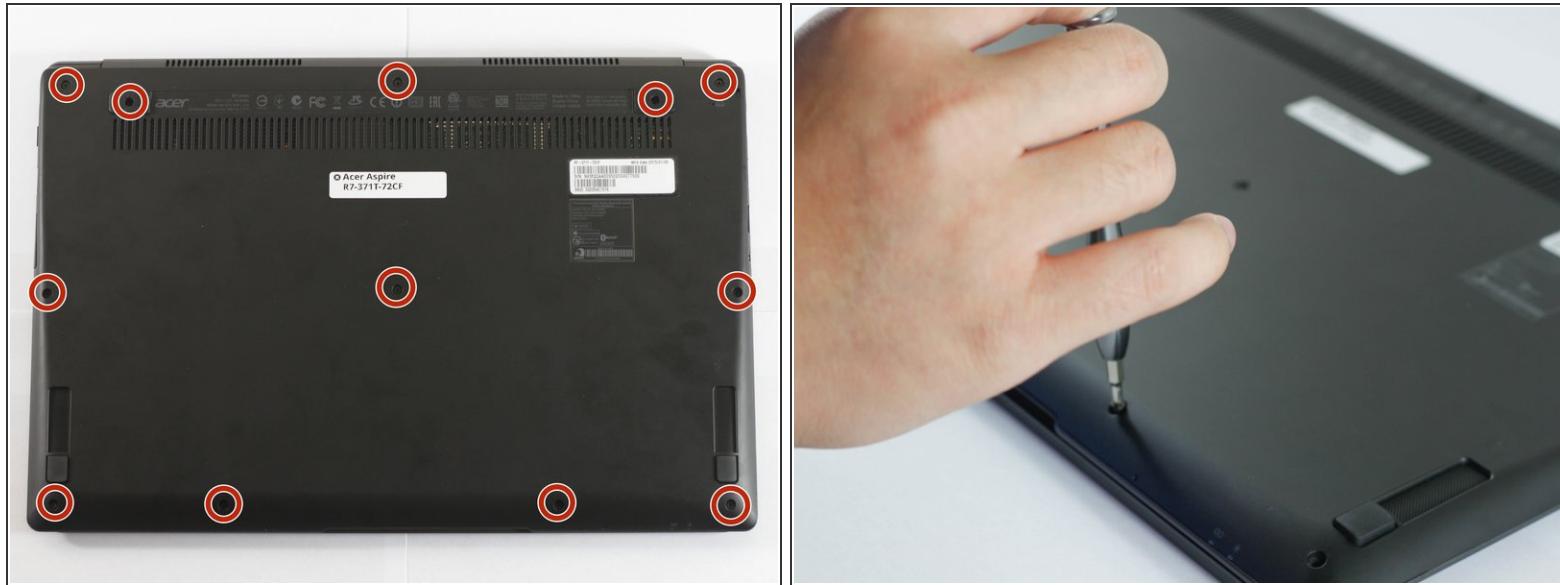

- Turn off your laptop and disconnect the power adapter.

- Locate and remove all 12 Phillips #00 6mm screws on the backside of the laptop.

Step 2

- Using your prying tool, carefully remove the back panel.

This document was generated on 2019-10-25 09:10:05 AM (MST).

Step 3
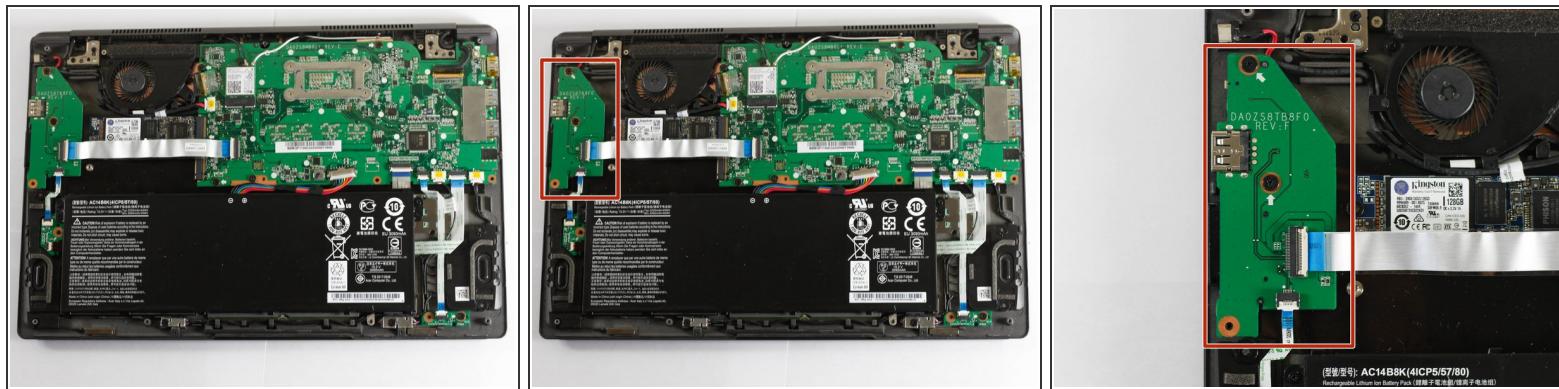

- Locate the USB chip, as shown to the left.

- ⓘ This can be identified by its location to the left of the cooling fan and above the battery to the left.

Step 4
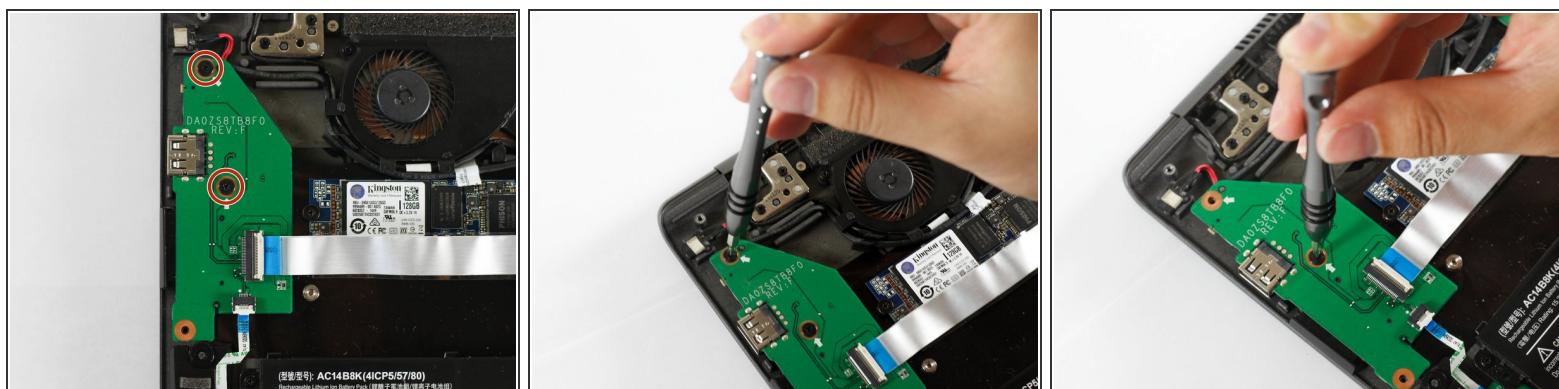

- Unscrew the two Phillips #00 4mm screws located on the USB chip.

Step 5
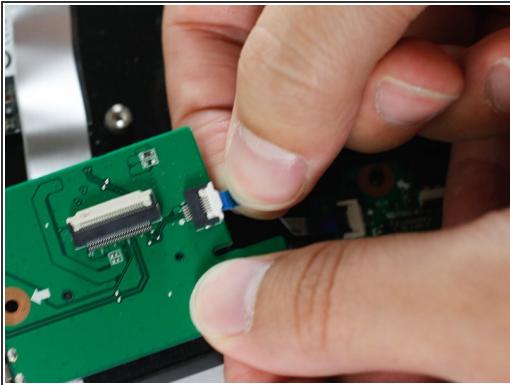

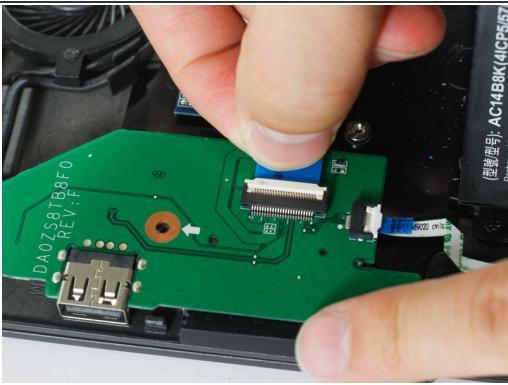

- Push the white panel upwards to unlock the cable and then remove the cable.

- Repeat for the second cable.

To reassemble your device, follow these instructions in reverse order.
