## TOOLS:

- [Phillips #0 Screwdriver](#) (1)
  - [iFixit Opening Tools](#) (1)
  - [iFixit Opening Picks set of 6](#) (1)
-

## Step 1 — Bottom Cover

 Switch-off the Laptop.

- Remove the seventeen Philips #0 screws.

## Step 2

- If there is a plastic storage tray in the laptop, remove it.

## Step 3

- Starting from the SD Memory Card hole, start prying between the top and bottom cases.

 Use plastic tools to avoid damaging the cover.

- Remove the bottom case.

## Step 4

 Disconnect the battery immediately for a safer repair.

- Pull the battery connector away from the hard drive to disconnect it.

## Step 5 — Battery

- Remove the single Phillips 0 screw securing the battery.

## Step 6

- Remove the battery

## Step 7 — Loudspeakers and Microphone

- Disconnect the Loudspeakers cable.
- There are two modules with loudspeakers, connected with one wire.
- Unscrew the screws and remove the Loudspeaker modules together with the cable.

To reassemble your device, follow these instructions in reverse order.
