Step 1 — Back Cover Replacement

ⓘ Place your Chromebook upside down.

● Utilizing the precision magnetized Phillips #0 screwdriver, remove all thirteen 6.5 mm Phillips screws that secure the back cover.

⚠ Before doing anything, make sure your Acer Chromebook is completely turned off.

Step 2

● Use the plastic opening tool to carefully remove the bottom.

Step 3 — Battery

- Remove the two 3.6 mm Phillips screws holding the battery in place.

Step 4

- Disconnect the connector that attaches the battery to the Chromebook with a pair of pliers or tweezers.
  - ⓘ Alternatively, you could use your hands, as it may be difficult to unhook the connector.
