

# Air Hog Smash Bots Front Panel Replacement

Replace the front panel on the controller of your Air Hog Smash Bots.

Written By: Jiani Xie

## INTRODUCTION

The purpose of this guide is to provide instructions on replacing the front panel and gaining internal access to the controller of the Air Hog Smash Bots.

### TOOLS:

- [8mm Socket Wrench Screwdriver](#) (1)
- [4mm Nut Driver](#) (1)
- [Spudger](#) (1)
- [64 Bit Driver Kit](#) (1)

## Step 1 — Front Panel

- Take out your controller and access to the back of the controller.

## Step 2

- Remove the screw on the battery lid. Using the Hex 4 socket and PH #0 bit, remove the 8 mm screw.

## Step 3

- Remove the 2 AAA batteries.

## Step 4

- Using the Hex 4 socket and PH #0 bit, remove the four 8 mm screws on the panel.

## Step 5

- Use the plastic opening tool to disconnect the front and back parts of the panel.
- ⓘ Some of the internal components may be displaced when opening the controller.

To reassemble your device, follow these instructions in reverse order.
