

Alcatel One Touch Pop 7 Battery Replacement

This is a guide to help you replace the battery.

Written By: Blake Davis

INTRODUCTION

In the case that your device is unable to power on, there may be a problem with its battery. This guide will show you how to replace the battery for the Alcatel One Touch Pop 7.

TOOLS:

- [Spudger \(1\)](#)
- [iFixit Opening Tools \(1\)](#)

Step 1 — Back Cover

- Begin by opening SD port cover as this is the best location to start prying.

Step 2

- Use the plastic opening tool to pry around the edges of the back cover until it pops off.

Step 3 — Battery

- Use precision tweezers to disconnect the battery from the ZIF connector.

Step 4

- Use the black stick spudger to pry the battery from the adhesive strips.

⚠ Do not bend or puncture the battery. Work slowly and carefully.

To reassemble your device, follow these instructions in reverse order.
