INTRODUCTION

This guide provides instructions on how to replace the battery in an Alienware Aurora M9700.

Step 1 — Battery

- Turn laptop over so that the bottom of the device is facing upward.

- Locate the square battery pack on the bottom left corner.

Step 2

- Notice a unlock emblem directly above the battery pack with a sliding lock button.

- Using your finger, slide the button to the right, releasing the battery from its designated compartment.

Step 3

- Now that the battery is free, use your finger to pry the battery upward, out of its designated compartment.

To reassemble your device, follow these instructions in reverse order.
