Alienware M14xR2 Battery Replacement
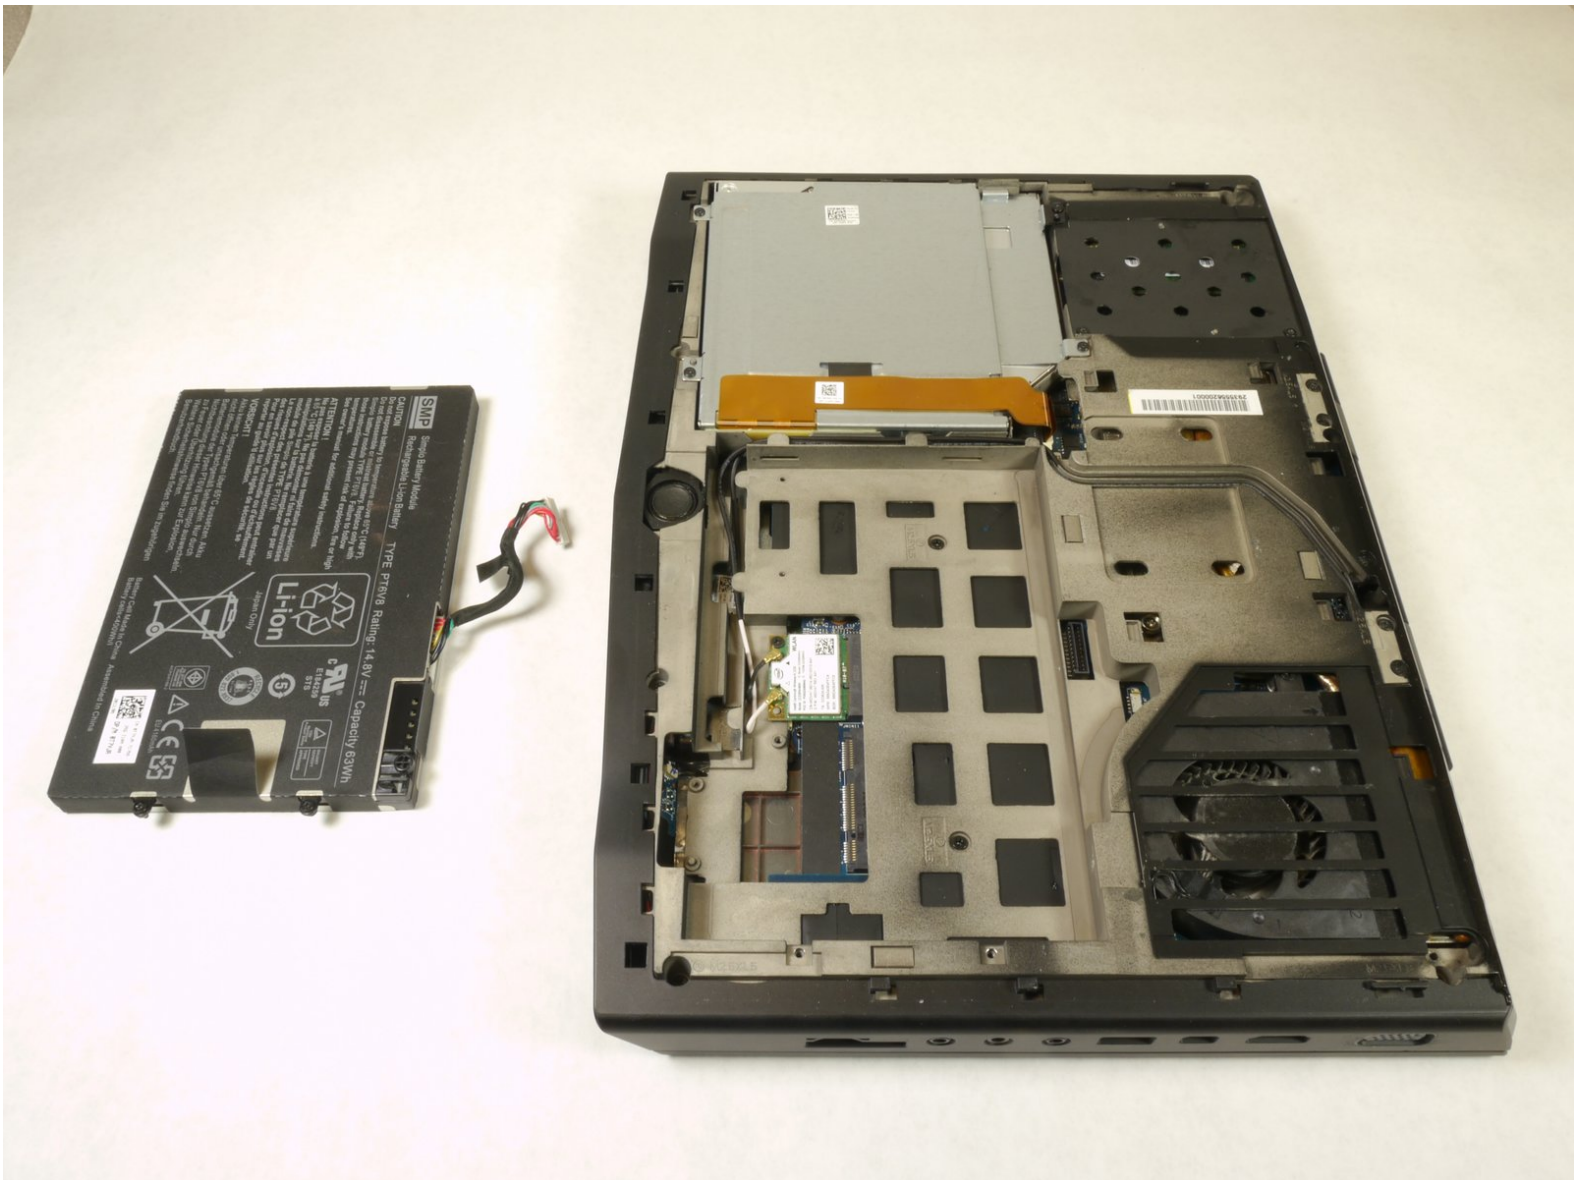

This guide will show you how to replace the battery in your Alienware M14x R2 laptop.

Written By: Connor Bovee

INTRODUCTION

This guide will show you how to safely remove your laptop battery without damaging the laptop or battery.
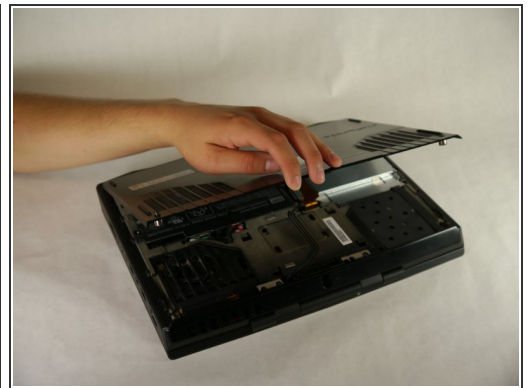

TOOLS:
- Phillips #1 Screwdriver (1)

PARTS:
- Alienware M14x-R2 (P18G) Battery (1)

Step 1 — Battery

- Turn the computer off.

- Disconnect the charging cable from the computer.

⚠ Failure to unplug the charging cable could result in electric shock and serious injury.
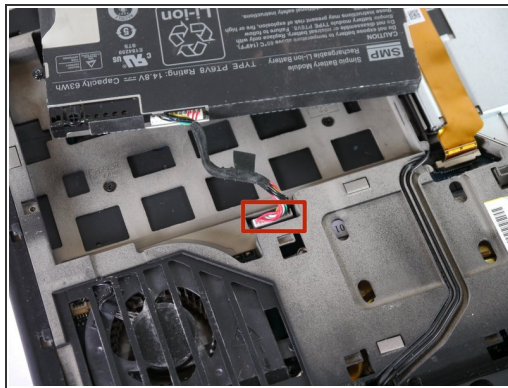

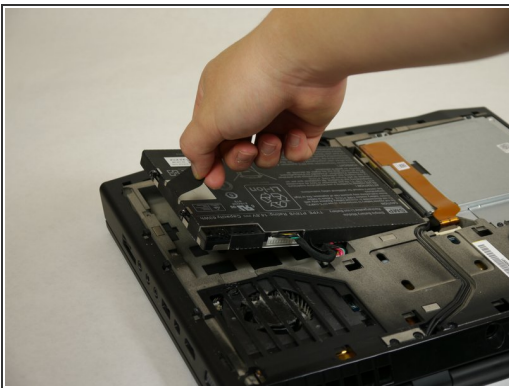

- Flip the computer upside down.

Step 2

- Loosen the two 6.35 mm size 1 Phillips screws on the back cover.

  ⓘ The two screws are spring loaded and will not separate from the cover.

- Slide the back cover towards you and then lift upwards to remove.

|

Step 3

- Loosen the two 6.35 mm size 1 Philips screws attaching the battery to the laptop.

- ⓘ The two screws are clipped into the battery and will not detach.

Step 4

- Pull up on the black tab on the battery to reveal the connection between the battery and laptop.

- Pull up on the white connector to disconnect it from the laptop.

- The battery is now free to remove from the laptop and can be set aside.

To reassemble your device, follow these instructions in reverse order.
