INTRODUCTION

If your battery can't keep a charge or drains quickly, use this guide to remove and replace your battery.

TOOLS:

- Phillips #0 Screwdriver (1)
- iFixit Opening Tools (1)

Step 1 — Battery

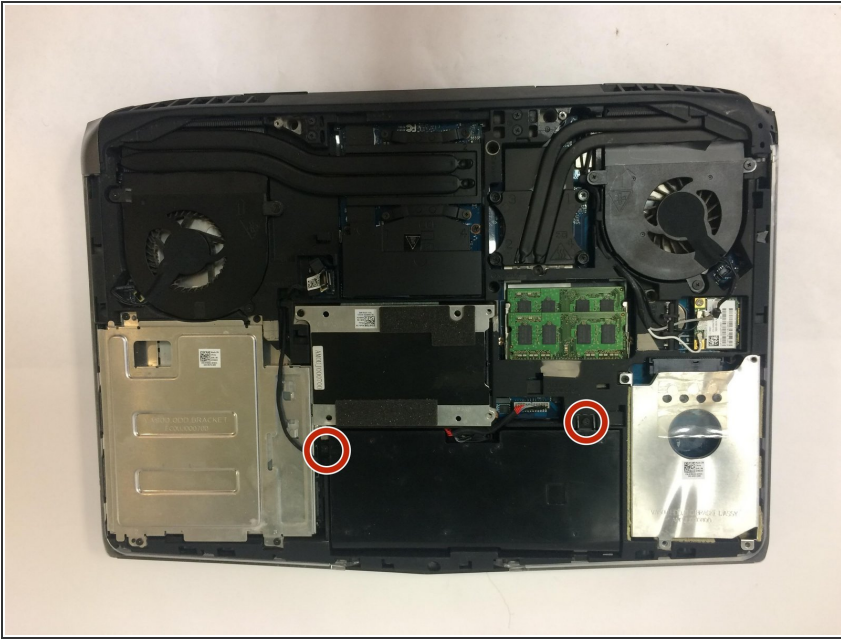

⚠ Turn off your laptop before starting.

● Flip the laptop over so the model stickers face the ceiling.

Step 2

● Remove the two 3.5 mm Phillips #0 screws holding the cover in place.

● Slide cover forward then carefully lift up.
