

# Alienware P18G M14X R1 Back Cover Replacement

How to replace the Alienware P18G M14X R1 back cover.

Written By: Andonaq Grozdani

---

# INTRODUCTION

Prerequisite Only

## TOOLS:

- [Phillips #1 Screwdriver](#) (1)
-

## Step 1 — Back Cover

- Loosen the top left and top right 6.5mm PH1 screws that hold down the back cover.

**i** The screws will not be able to be removed from the back cover. They can only be loosened or tightened.

## Step 2

- Slide back cover forward using your thumbs.

## Step 3

- Lift up the cover and set aside exposing the internals of the computer.

To reassemble your device, follow these instructions in reverse order.
