

Altec Lansing BoomJacket 2 Motherboard Replacement

How to replace the Altec Lansing BoomJacket 2 motherboard.

Written By: Zach Braaten

INTRODUCTION

Replacing the motherboard can help with bluetooth connection and control panel buttons issues.

TOOLS:

- **Phillips #1 Screwdriver (1)**
PH1
- **Tweezers (1)**
- **Metal Spudger (1)**

PARTS:

- **4mm x 12mm screw (6)**
Phillips Head
- **Rubber Stopper (6)**
A rubber plug that keeps the screw sealed

Step 1 — Altec Lansing BoomJacket 2 Disassembly

- Starting from any side, use your fingers to grab the black rubber sleeve and gently pull away from the speaker on both sides.

Step 2

- Using your fingers, grab the blue sleeve from one side and pull away from the unit.

Step 3

- At each of the marked pry spots, use the metal spudger to lift the speaker grill away from the case.

⚠️ Avoid using excessive force to prevent bending the grill.

Step 4

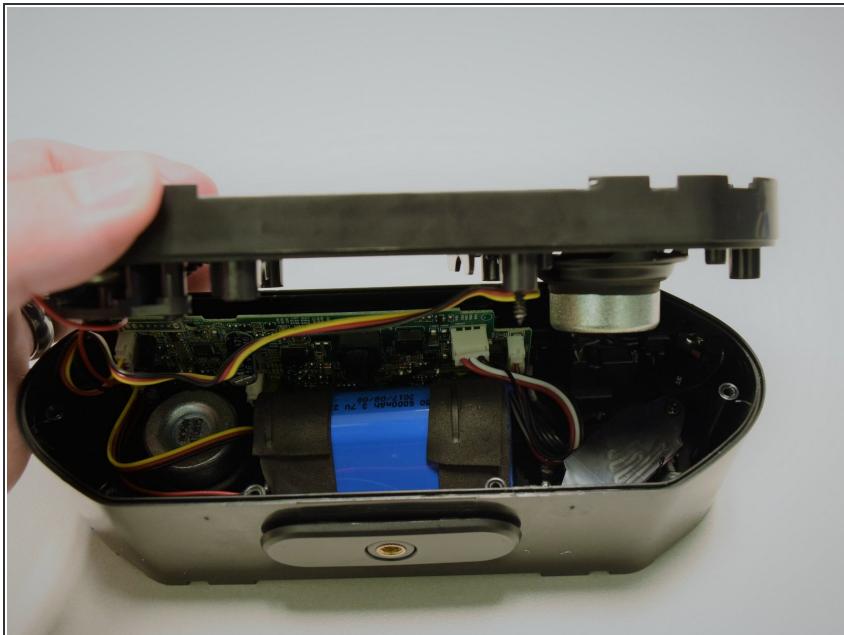

- Use the tweezers to remove the six rubber stoppers. There are four in the middle and two on the sides.

Step 5

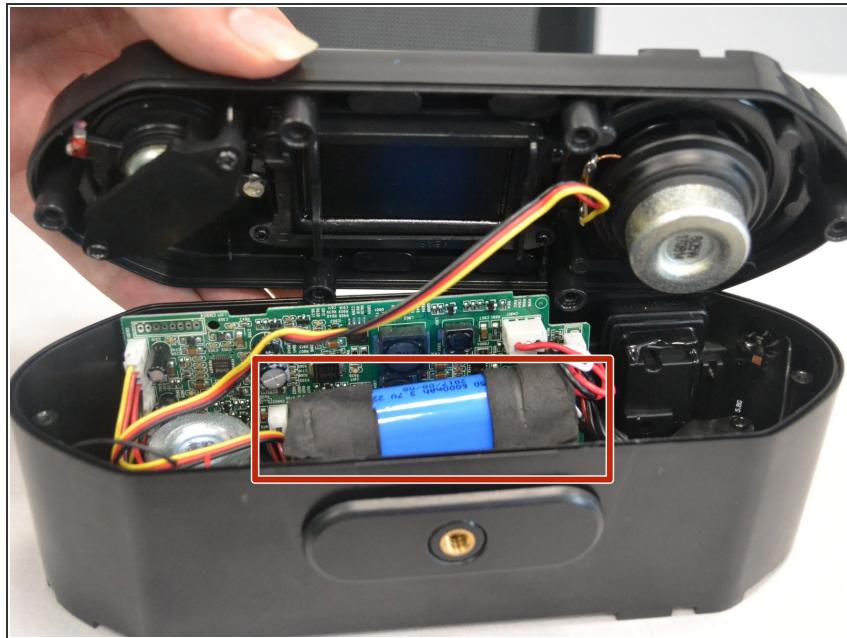

- Use the PH1 Phillips screwdriver to remove the six 12mm screws that lie underneath each rubber stopper.

Step 6

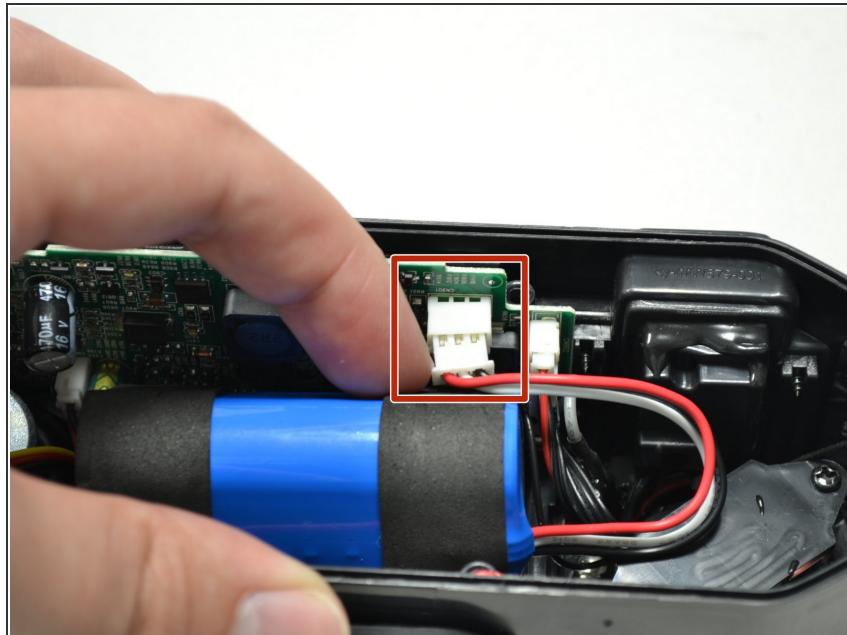

- Gently pull apart the front panel from the base of the speaker.

Step 7 — Battery

- The battery will be in the middle of the speaker when the case is open.

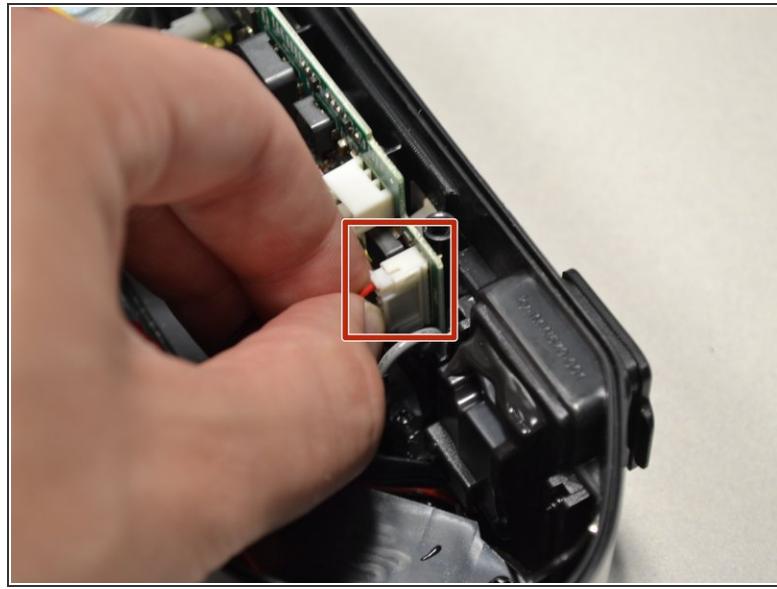

Step 8

- Pull firmly from both sides of the pin to disconnect the battery cable from the motherboard.
- Pull battery up and away from speaker without catching any other components.

⚠ Motherboards have fragile components and can easily be damaged if they are hit or pulled on while extracting other parts.

Step 9 — Motherboard

- Disconnect the furthest right hand plug first.

 Do not pull from the wires. Pull from the white connector.

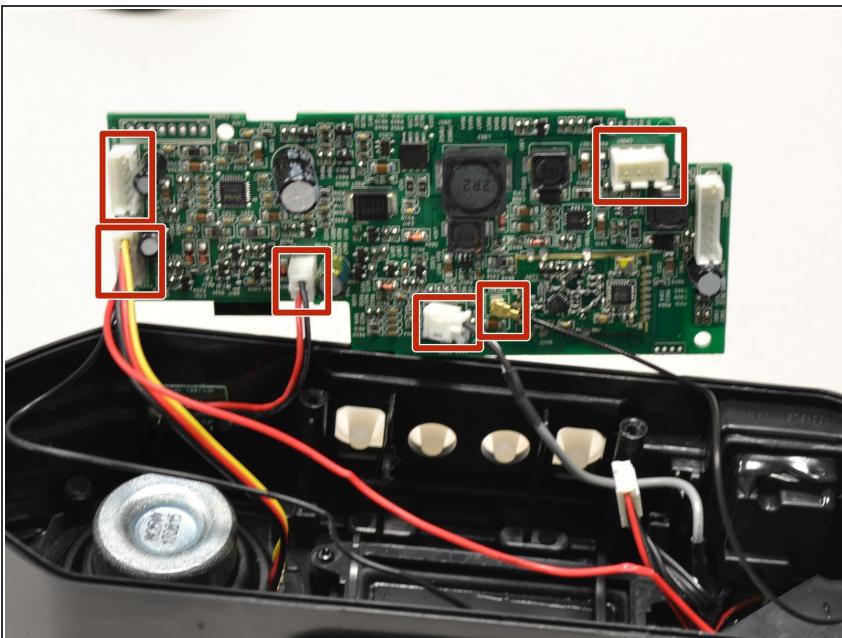

Step 10

- Gently pull the motherboard directly upwards to avoid damage.

 Be sure to lift slowly.

Step 11

- Disconnect the remaining connectors from the motherboard.

⚠ Do not forcefully pull connectors. Pull from the connectors, not from the wires.

To reassemble your device, follow these instructions in reverse order.
