Step 1 — Hard Drive

- Flip the laptop over and remove the two 4mm screws located at the bottom of the laptop with the PH0 screwdriver.

Step 2

- Using a plastic opening tool or finger, remove the access panel.

- ⓘ Apply constant force until the panel releases from the clips underneath.

Step 3

● Locate the two, 4mm screws on the hard drive. Remove them with the PH0 screwdriver.

Step 4

● Using the black tab located on the hard drive, pull out the hard drive.

To reassemble your device, follow these instructions in reverse order.
