Step 1 — Speaker

- With the phone facing down, look at the bottom right side corner and there should be a groove. Use a plastic opening tool and lift up to remove outside cover.

⚠️ This is not the cover with the speaker attached.

Step 2

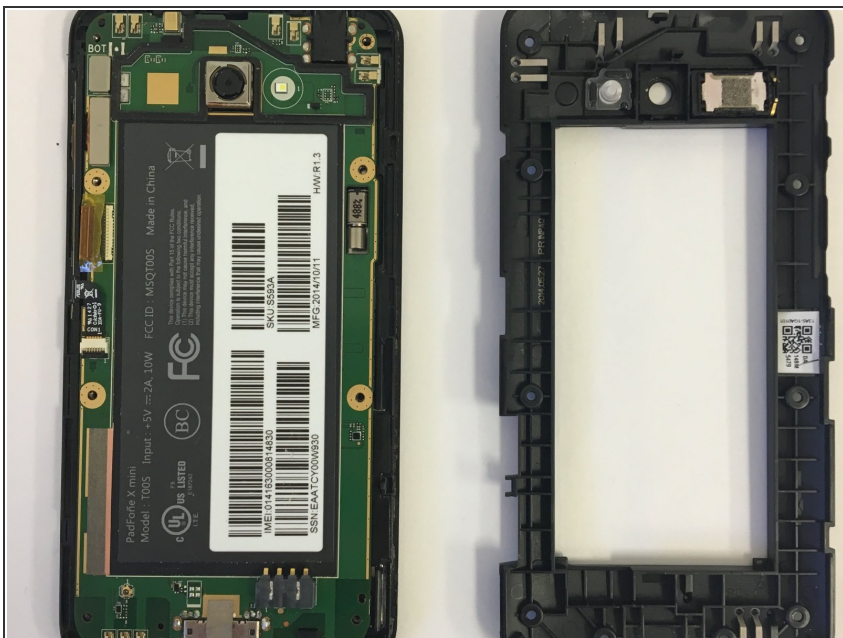

- Lift the battery out from the top of the device.

Step 3

- Around the perimeter, there should be 10 2 mm T5 Torx screws. Take them out.

- Remove the cover.

Step 4

- Turn the cover over.

- (i) The speaker is attached to the inside of the cover and to the right of the camera hole.

Step 5

- Remove speaker with standard tweezers to minimize damage, and replace.

To reassemble your device, follow these instructions in reverse order.
