Step 1 — Back Panel

⚠️ Ensure the laptop is powered down before continuing.

- Use a Phillips #0 screwdriver to remove the ten 3mm Phillips head screws on the base of the laptop.

Step 2

- Use the spudger to pry open the rear cover at either hinge.

Step 3

- Grab the cover with your fingers and gently lift it away from the board.

- ⓘ Be careful not to break any tabs on the cover when lifting it off.

To reassemble your device, follow these instructions in reverse order.
