

Asus ROG G56JK CD Drive Replacement

This is a CD Drive replacement guide for the Asus ROG G56JK.

Written By: Brandon Wells

INTRODUCTION

Replace a broken or messed up CD-Drive.

Before starting on this guide, unplug the laptop from its charger and turn the laptop off.

TOOLS:

- [Phillips #0 Screwdriver \(1\)](#)

Step 1 — Battery

- Push the slider to the opposite side, while pulling out the battery.
- Remove the battery from the device.

Step 2 — Hard Drive

- Remove the 4 mm screw on the cover using a Phillips #0 screwdriver.
- Remove the cover for the hard drive by pushing down and sliding it towards yourself.

Step 3

- Slide the hard drive to left and remove it from the device.

Step 4 — Back Panel

- Unscrew the four 4mm screws using a Phillips #0 screwdriver.

Step 5

- Flip the computer right side up and start to lift the keyboard. The keyboard/back panel should come off.

 Do not force the keyboard/back panel off. This could damage internal components and bend the keyboard.

Step 6 — CD Drive

- Using a Phillips #0 screwdriver, unscrew the four 4mm screws.

Step 7

- Gently pull the CD drive out of the side of the laptop and remove it from the device.

To reassemble your device, follow these instructions in reverse order.
