Asus VivoTab Note 8 Back Panel Replacement

How to remove the back panel from the Asus VivoTab Note 8.

Written By: Ryan Spencer
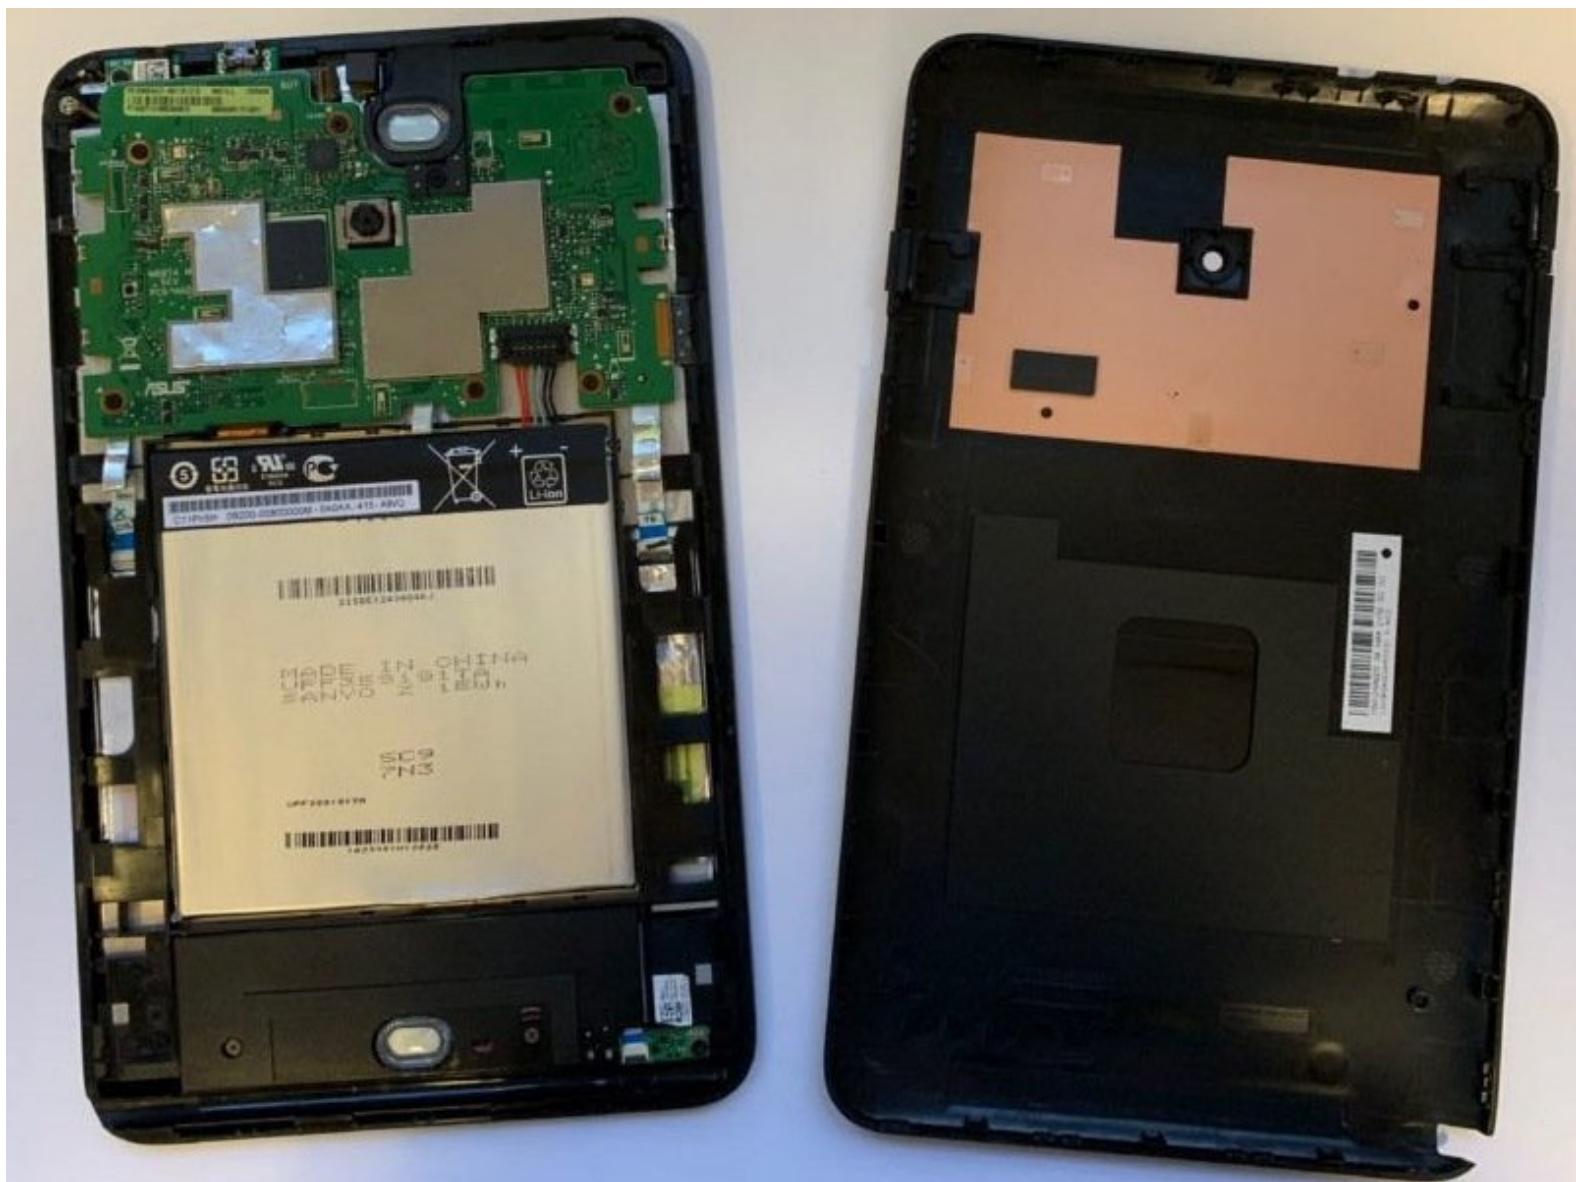

INTRODUCTION

Opening the back panel is easy, however it is recommended to have a plastic opening tool to pry it off.

🔧 **TOOLS:**
- iFixit Opening Tools (1)

Step 1 — Back Panel

- First take the pen out, it may get in the way when you are opening the device. If you have a memory card, you should also remove it.

- Use the plastic opening tool to pry open the edges of the cover. The memory card slot is very useful for getting started.

Step 2
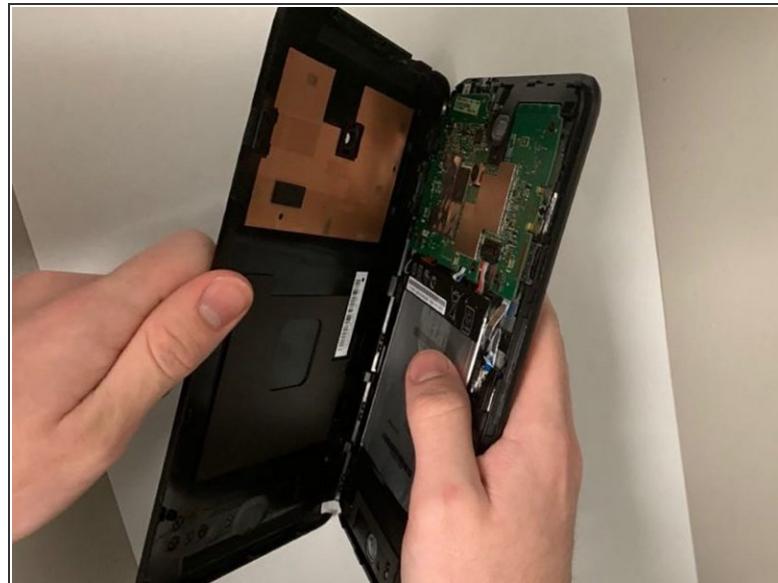

- Move the opening tool along the edges of the tablet and push up wherever you can. You may need to open up all of the sides to take the panel off.

- Then pull apart the sides of the casing.

Step 3
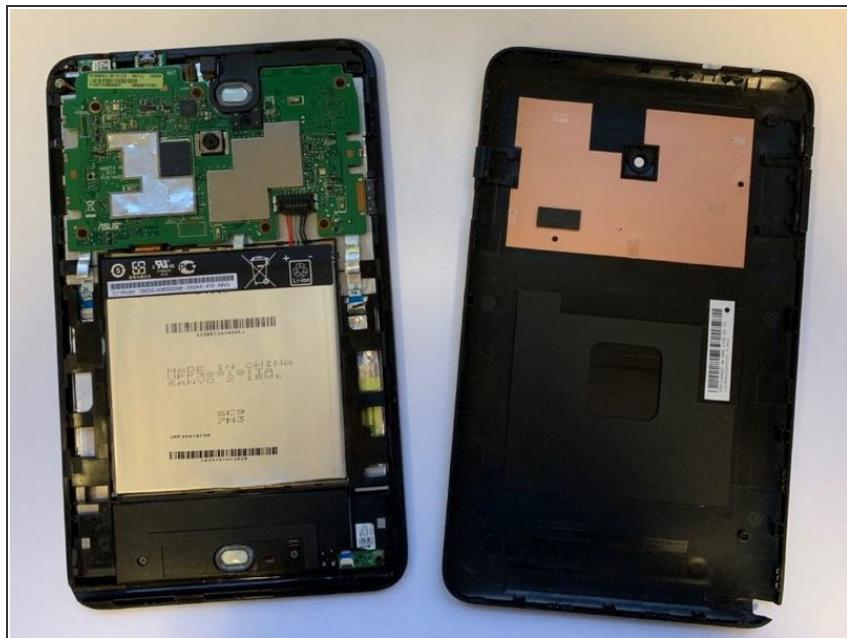

- After pulling the panel off, put it to the side.

To reassemble your device, follow these instructions in reverse order.
