

Asus Z54C-JS31 Battery Replacement

Your laptop won't charge because you have a dead battery or it won't hold a charge at all.

Written By: Mark DeSimone

INTRODUCTION

This guide will show how to replace the battery on an Asus Z54C-JS31 laptop. Over time batteries naturally lose their ability to hold a charge and will need to be replaced.

Step 1 — Battery

- Turn the laptop upside down so that the underside is facing up and locate the two switches that are on each side of the battery.
- Slide the switch on the top right corner to the right.
- Slide and hold the switch on the top left corner to the left and carefully remove the battery.

To reassemble your device, follow these instructions in reverse order.
