

BLU Studio 5.0 II Volume Button Replacement

This guide will show you how to replace the volume button on your Blu Studio 5.0 II phone.

Written By: Zack Miliziano

INTRODUCTION

This guide will show you how to replace the volume button on your Blu Studio 5.0 II phone.

TOOLS:

- [Phillips #00 Screwdriver](#) (1)
 - [Spudger](#) (1)
-

Step 1 — Battery

- ⚠ Turn off your phone before disassembling the device.
- Locate the small opening on the bottom corner of the back case.

Step 2

- Use your finger to open the back case by slowly pulling it on the open slot.
- Once the case is lifted on the corner, slide your finger along the edge of the phone to remove the rest of the case.

Step 3

- Locate the opening slot at the bottom of the battery.
- Use your finger to lift the battery and remove it from the case.

Step 4 — Back Case

- Locate the four 3mm screws on each side of the back panel.
- Use a Phillips #00 screwdriver to remove the eight screws.

Step 5

- Carefully use a spudger to start opening the back case by inserting it between the black and blue lines on the side of the phone.
- With the help of your fingers, continue to remove the back case by sliding it through the opening.

Step 6 — Volume Button

- Locate the volume button on the right side of the phone after removing back case.
- Using a spudger carefully wedge between button and phone and carefully pry away from the phone.
- Once removed the yellow buttons will be visible.

To reassemble your device, follow these instructions in reverse order.
