INTRODUCTION

The back case is a form of protection for the frame cover. Use this guide to remove the back case of your device.

TOOLS:

- [iFixit Opening Tools \(1\)](#)

Step 1 — Back Case

- Pry the back cover from the bottom of the phone, pulling outwards and upwards.

Step 2

- Fully remove the cover and set aside in a safe place.

To reassemble your device, follow these instructions in reverse order.
