

Basis B1 Band Watch Strap Replacement

This guide shows how to detach the straps on this watch.

Written By: Kaitlyn Lee

INTRODUCTION

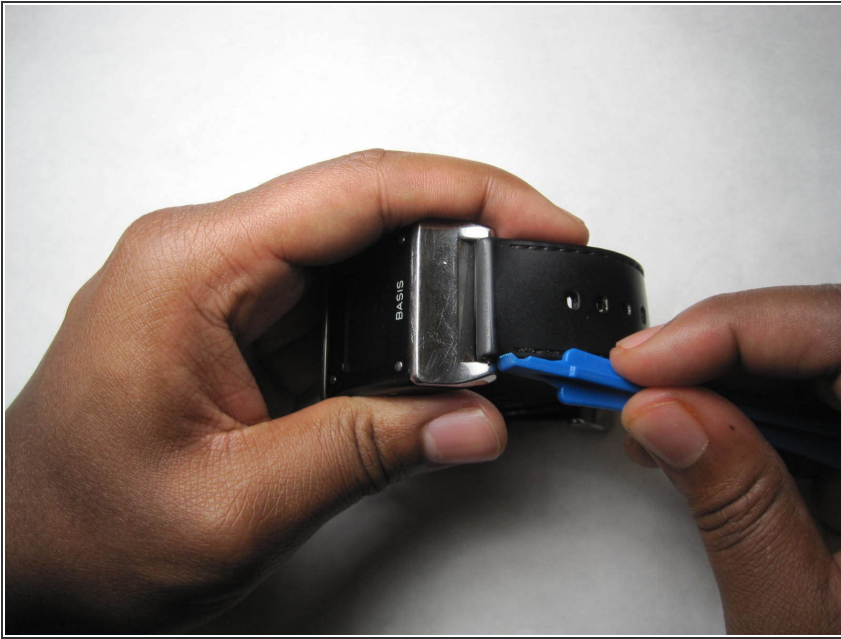

The straps on this watch can start to look old, so this guide shows how to replace them when needed.

TOOLS:

- [iFixit Opening Tools](#) (1)
-

Step 1 — Watch Strap

- Wedge a plastic opening tool between band contacts.

Step 2

- Push in plastic opening tool until the components click and pop out of the holder.
- Repeat steps for other band.

To reassemble your device, follow these instructions in reverse order.
