INTRODUCTION

Don't worry, Dr. Dre is here! Changing the batteries is probably the easiest replacement procedure you can perform, so don't stress out and you'll be fine.

PARTS:

- [Beats By Dre. Studio Left Headphone Cover \(1\)](#)

Step 1 — Identify the Left Speaker Housing

- The left speaker is the speaker that holds the batteries and does not have the power switch.

Step 2 — Removing the Battery Cap

- Place two fingers on each side of the cap. Press and twist counterclockwise to loosen the cap.
- Once the cap is loose, simply lift the cap out to reveal the batteries.

Step 3 — Batteries!

- Carefully pull the batteries out of their housings. When putting in new batteries, make sure that you place each battery in the correct orientation.

To reassemble your device, follow these instructions in reverse order.
