 **TOOLS:**

- **Phillips #00 Screwdriver (1)**

## Step 1 — Remote Control Antenna

- Hold the remote control with the backside facing you and, using the Phillips #00 screwdriver, unscrew the six 6.5 mm screws on the back of the controller that hold it together.

## Step 2

- After unscrewing the six screws, pull the the device apart to reveal where the antenna meets the long white wire.

## Step 3

- Remove the 4.5 mm screw on the remote that holds the antenna in place to set it loose.

## Step 4

- Replace the old antenna with a new one. Attach the new antenna to the white wire and screw it in place.

To reassemble your device, follow these instructions in reverse order.
