

# Black and Decker Dustbuster CHV1510

This prerequisite guide consists of steps that need to be followed for replacing most components of your vaccum.

Written By: Miguel Vilao

## TOOLS:

- [Phillips #0 Screwdriver](#) (1)
-

## Step 1 — Prerequisite Only Guide

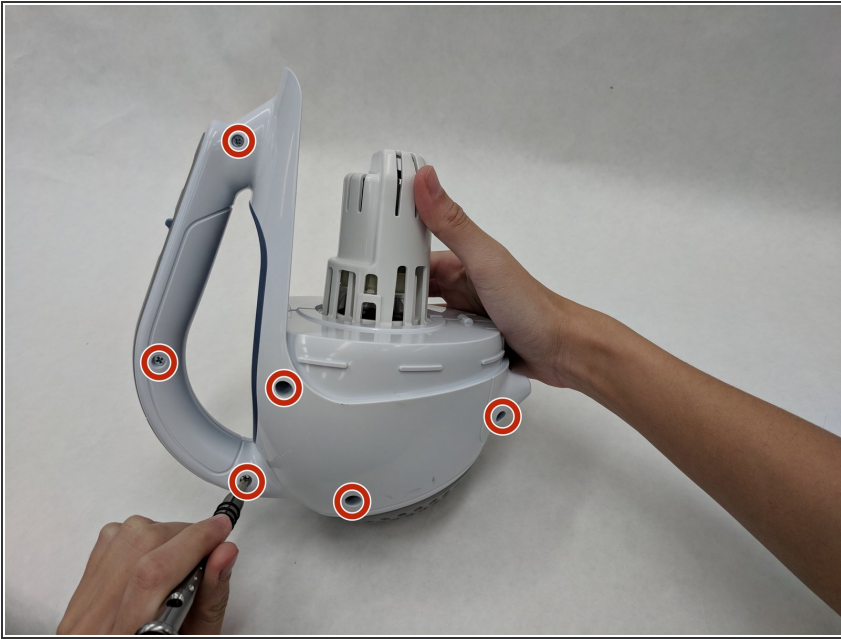

- Press the buttons with unlock symbols on both sides of the nozzle.
- Pull the nozzle upward.
- ❗ The other button cannot be seen on the image.

## Step 2

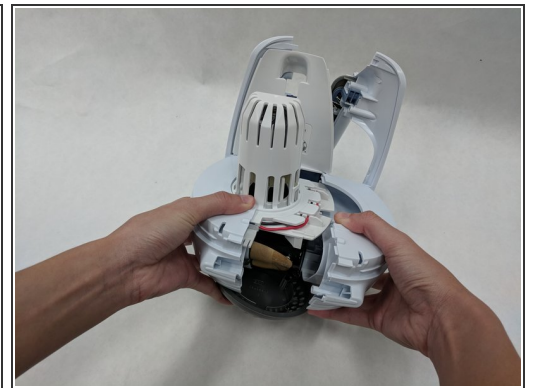

- Press the button with the "filter" indicator.
- Pull the filter cover upward.

### Step 3

- Holding the vacuum base firmly, remove all six exterior 20 mm Phillips #0 screws.

### Step 4

- Carefully and gently pull the two halves of the vacuum apart.

To reassemble your device, follow these instructions in reverse order.
