

# Black and Decker JE2200B Pulp Container Replacement

The removable pulp container is located on the back of the juicer. This guide will assist users in replacing this piece.

Written By: AvaAnne Hogue

## INTRODUCTION

Over time the pulp container wears out and needs to be replaced. The process is straight forward and safe for the user to do.

## Step 1 — Pulp Container

- Place one hand on the juice spout and the other on the pulp container.
- Pull the pulp container away from the juicer at 45 degrees.

To reassemble your device, follow these instructions in reverse order.
