

# Black and Decker JE2200B Pulp Separator Replacement

This guide will assist in the replacement of the pulp separator if it is damaged.

Written By: AvaAnne Hogue

## INTRODUCTION

This part of the juicer is moderately hard to access and has some safety hazards associated with it. Proceed with caution when using this guide.

## Step 1 — Pulp Separator

- Follow steps 1-4 in [this guide](#) to access the pulp separator.

 Accessing the pulp separator involves removing the cutter. The teeth on here are sharp and will cut you. Do not touch the teeth of the cutter.

## Step 2

- Hold the pulp separator on both sides and pull vertically up.

To reassemble your device, follow these instructions in reverse order.
