

# BlackBerry Bold 9000 Screen Replacement

Written By: Gabe

## INTRODUCTION

**This guide has been updated by another user! Read the new [here](#).**

So you broke the screen of your BlackBerry Bold 9000? Here's how to replace it!

### **TOOLS:**

- T6 Torx Screwdriver (1)

### **PARTS:**

- LCD12360 (1)

## Step 1 — Screen

- Remove those six screws with a T5 Screwdriver

## Step 2

- Lift up the backplate

## Step 3

- Lift the motherboard
- Disconnect the ribbon for the display and the speaker.

## Step 4

- Then simply lift up the display. On the back of it it would say either 001/004, 002/004, 003/004 or 004/004. Make sure you buy the right replacement model or else it will not work.

To reassemble your device, follow these instructions in reverse order.
