Step 1 — Remove Back Panel

- Use a plastic opening tool to pry the back panel off by inserting it in between the front and back panel.
- ⓘ There are clips that need to be released on all four sides of the device.
- ✦ When replacing the back cover insert the bottom side first (usb and hdmi ports stick out about 2mm) inserting them into the covers openings will allow for easier reassembly

To reassemble your device, follow these instructions in reverse order.
